Tony T. Howard
Executive Director

Fall/Winter 2017

Dear Parent and/or Guardian:

Thank you for your interest in the Chicago Public Schools! Our mission is to provide a wide variety of schools and programs that meet the interests and needs of Chicago's families.

The Elementary and High School Guide provides information about the application process for both elementary and high schools. This guide is arranged by application type (Standard, Selective Enrollment, and High School) and contains the following:

- An overview of the process, from application to notification.
- Frequently asked questions and answers for each type of application, organized according to the type of question
- Details regarding the selection process
- Helpful hints for students with disabilities applying to Selective Enrollment Elementary Schools
- Tips for applying
- Eligibility requirements
- A glossary of academic programs or elementary schools
- A list of elementary and high schools by program

You can apply online or, if you prefer, the paper application is also available.

We hope that you will find this guide to be an informative and easy-to-use tool for assisting you with the application process. If you have questions or need assistance of any kind, please don't hesitate to contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu. We are here to serve!

Tony T. Howard

INTRODUCTION

Beginning with the 2018-2019 school year, a new platform -- GoCPS -- will manage the research, application, scheduling, notification, and acceptance process for parents to apply to the four magnet preschools, all district elementary schools, and all district and charter high schools. Parents can use the new GoCPS website (go.cps.edu) to conduct research on the various school and program options available, as well as access the online and paper application processes.

The process for applying to the four magnet preschools and district elementary schools will basically remain unchanged; parents will simply visit go.cps.edu to apply. Other changes are that (1) parents will see both Non-Selective Enrollment (magnet, magnet cluster and open enrollment schools) and Selective Enrollment Schools in the same list online; (2) parents will use school codes to apply to Selective Enrollment Elementary Schools as well as Non-Selective Enrollment Elementary Schools on the paper application; and (3) parents will both accept and decline offers online if they use the online application process. The more significant changes to the application process are for students applying to ninth grade. Please turn to page 54 to read about the process for students applying to ninth grade.

The following provides information regarding the application process for PreK through eighth grade.

OVERVIEW

Every street address in the city of Chicago is assigned one attendance area (or neighborhood) elementary school and one neighborhood high school. In most cases, your child can attend your designated neighborhood school without having to submit an application. (For information on enrolling your child in your neighborhood school, contact the school directly.) To find your neighborhood school, visit the CPS School Locator, which can be found at www.cps.edu.

For any other school in the Chicago Public Schools system, you will have to submit an application if you want your child to be considered for enrollment. You are not restricted to schools that are close to your home; there is a wide variety of academic options throughout the city. Applications are submitted the year before your child will enroll – if your child will enroll in fall 2018, you will submit your application in fall 2017, between October 10th and December 22nd.

Read on for information on the types of schools and programs available, which applications to use, how students are selected, and how parents are notified.

WHAT'S AVAILABLE?

There are two main types of schools to which you can apply – (1) magnet schools, magnet cluster schools, and open enrollment schools, and (2) Selective Enrollment Elementary Schools. Students can also apply to Marine Leadership Academy at Ames, which is a Military Academy.

1. Magnet Schools and Programs (Magnet Schools, Magnet Cluster Schools and Open Enrollment Schools)

This category consists of three types of schools: magnet schools, magnet cluster schools, and open enrollment schools. These schools are open to all students; there is no academic criteria. A description of each type of school is below:

Magnet schools: Specialize in one particular area, such as math/science, Montessori, or Humanities. In most cases, magnet schools do not have neighborhood attendance boundaries. Unless the school has an attendance boundary, all interested students must submit an application in order to be considered for acceptance.

Magnet cluster schools: Like magnet schools, specialize in one particular area, such as technology, world language, or fine and performing arts. A magnet cluster school is a neighborhood school – it has a neighborhood attendance boundary and accepts students who live within that boundary. Students who live outside of the neighborhood attendance boundary must submit an application in order to be considered for acceptance.

Open enrollment schools: A neighborhood school that does not specialize in a particular area of the curriculum. Open enrollment schools accept students who live within their boundary. Students who live outside of the neighborhood attendance boundary must submit an application in order to be considered for acceptance.

2. Selective Enrollment Elementary Schools

This category consists of five types of schools/programs: Academic Centers, Classical Schools, the International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners. (Note that the International Gifted Program at Lincoln Elementary School is being phased out and is only accepting students at grades 7 and 8 for the 2018-2019 school year.) These schools are designed for academically advanced students. A description of each type of school/program is below:

Academic Centers: Serve students in grades 7-8 and are housed in designated high schools. The curriculum is designed to allow high-achieving and motivated students the opportunity to complete the elementary curriculum and enter high school classes in English, social studies, science, mathematics, world language, and music or art. Once students enter an Academic Center at the seventh or eighth grade, they may remain enrolled, if they wish, in the high school in which the Academic Center is housed until their graduation from 12th grade.

Classical Schools: Designed to provide a challenging liberal arts course of instruction for students with high academic potential. The instructional program in these schools is accelerated and highly structured for strong academic achievement in literature, mathematics, language arts, world language, and the humanities.

International Gifted Program: Serves students in grades 7-8 at Lincoln Elementary School. The program includes intensive study in English, French, social studies, laboratory science, mathematics, technology, arts, physical education, library science, and advanced research.

Regional Gifted Centers: Designed to provide appropriate services for children identified as gifted. The Regional Gifted Centers provide an accelerated instructional program that places an emphasis on thinking, reasoning, problem solving and creativity. In addition to rigor in the core content areas, instruction includes a world language or Latin, laboratory science, computer science and fine arts. A differentiated, enriched curriculum allows for skill development appropriate for the gifted student's abilities and interests.

Regional Gifted Centers for English Learners: Designed to meet the needs of high-ability students whose primary language is Polish or Spanish (The Russian program at Greeley is phasing out and is not accepting new students).

3. Military Academies

There is one school serving elementary school students that is categorized as a Military Academy: Marine Leadership Academy at Ames. This school serves students in grades 7-12. Military Academies prepare students for college and subsequent careers in a structured environment.

HOW ARE STUDENTS SELECTED?

Students are selected for magnet schools, magnet cluster schools, and open enrollment schools through a computerized lottery. Students are selected for Selective Enrollment Elementary Schools through a testing process. For the Marine Leadership Academy at Ames, applicants must attend an Information Session; students are selected based on points derived from a Motivation and Perseverance Assessment and a brief essay written at the session.

HOW DO I APPLY?

You have the option of applying by using an **online** application process, or by submitting **paper** applications.

Applying Online

To apply using the online application process, go to go.cps.edu and click 'Apply' to open an account. **(You do not need a PIN or Activation Code to open an account.)** You will first be asked: Is your child new to the Chicago Public Schools? If your child attended a Chicago district or charter school in the 2016-2017 school year, or currently attends a Chicago district or charter school, be sure to answer 'No' to this question.

After you successfully open an account, you will see the list of all elementary schools to which you can apply, including Non-Selective Enrollment (magnet, magnet cluster, open enrollment) and Selective Enrollment Elementary Schools (Academic Centers, the International Gifted Program, Classical Schools, Regional Gifted Centers, and Regional Gifted Centers for English Learners) of your choice. You can apply to up to 20 Non-Selective schools (magnet, magnet cluster and open enrollment), up to six Academic Centers (grades 7-8 only), up to six Classical Schools/Regional Gifted Centers, one International Gifted Program and up to three Regional Gifted Centers for English Learners.

As you apply, the online application site will provide a counter that will keep track of the number of schools/programs that you've selected on your application. You will then be given instructions on how to rank any Selective Enrollment schools to which you are applying, and you will be then be instructed to schedule admissions exams for any of the schools/programs to which you've applied. Be sure to submit your application AND schedule your exam(s) before the December 22nd deadline.

(Note that you will not rank the Non-Selective Enrollment schools. All Non-Selective Enrollment Schools are considered equally in separate lotteries. As a result, it is possible for your child to receive an offer from more than one magnet, magnet cluster, or open enrollment school.)

Applying with Paper

To apply using the paper application process, go to go.cps.edu (click 'How to Apply' and 'Elementary Schools') to download and print the application(s). Submit your completed application(s) to the Office of Access and Enrollment.

If you apply for Selective Enrollment Elementary Schools and your child is eligible for testing, The Office of Access and Enrollment will schedule your child's test(s) and notify you of the date(s) and time(s) via U.S. mail. If you have not received your letter of test notification by February 15, 2017, contact the Office of Access and Enrollment.

HOW WILL I BE NOTIFIED?

Online Applicants: If you apply online, your results will be posted to your online account in April 2018. If you want to accept an offer, you will accept it via your online account.

Paper Applicants: If you apply via paper application, your notification letter(s) will be sent to your home address in April 2018, via U.S. mail. If you want to accept an offer, you will submit a paper Confirmation Form.

Have questions? Read on for further information!

For Selective Enrollment Elementary Schools, you will use a two-step process when applying online:

(1) APPLY, THEN (2) SCHEDULE.

Both steps must be COMPLETED by the application deadline of December 22, 2017.

APPLICATION TIP #1

If you want your child to attend a school where you have another child currently enrolled, and the currently enrolled student will still be enrolled in the 2018-2019 school year, you MUST submit an application. If you do not submit an application, your child will not be considered for enrollment. Siblings of currently enrolled students MUST SUBMIT AN APPLICATION.

APPLICATION TIP #2

If you are applying to kindergarten for the Selective Enrollment Elementary Schools, and you schedule your child to test between November 1st through November 21st, you will receive your child's test scores BEFORE the application deadline on December 22nd.

APPLICATION TIP #3

If your child is enrolled in a four-year-old preschool program at a Chicago public school, and you want your child to attend kindergarten at that school, you MUST submit an application, unless the school is Drummond, Inter-American, Mayer, or Suder, which are magnet schools where the preschool feeds into kindergarten. FOR ALL OTHER SCHOOLS, you must submit an application if you want your child to be included in the selection process for kindergarten.

ESSENTIAL INFO: Read This First!

1. If you change your address or telephone number after you submit your child's application, and you apply using the online application portal, you can update your contact information online. If you change your address or telephone number after you submit your child's application, and you apply via paper application, you must contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a paper Contact Information Modification Form. In order for your new address to be used in the process of determining tiers, attendance area boundaries, and proximity boundaries, your changes must be received by the Office of Access and Enrollment no later than December 22, 2017. If your child receives an offer and you accept it, you are required to provide proof of both addresses at the time of registration.
2. The application process for the Academic Centers and International Gifted Program includes the submission of final (cumulative) grades in reading, math, science, and social studies from the 2016-2017 school year. These final grades must take into account the student's grades during the **entire** 2016-2017 school year. For example, in a school with four quarters, the final grade is not the grade issued in the fourth quarter, but a cumulative grade that provides the mean, or average grade, of all four quarters. The student's school is responsible for calculating the final grade in each subject.
3. If there is an error in your child's grades or test scores, contact your child's counselor or school official, and submit official changes to the Office of Access and Enrollment. Any official changes to scores or grades must be received by the Office of Access and Enrollment no later than December 22, 2017. Changes received after this date will not be considered in the selection process.
4. It is highly recommended that you do all of your research, including attending Open Houses, visiting school communities, etc., BEFORE you make your final decisions and submit your applications. However, if you need to modify your choices, and you apply using the online application portal, you can make your choice changes online. If you need to modify your choices, and you apply via paper application, you must contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a paper Application Modification Form. (There are separate forms for the Standard Elementary Schools application and the Selective Enrollment Elementary Schools application.) Your changes must be received by the Office of Access and Enrollment no later than December 22, 2017.
5. For security purposes, if you need information or have questions regarding your child's application, you will need to call the Office of Access and Enrollment from one of the telephone numbers on your child's application, or email the Office of Access and Enrollment from the email address on your child's application.
6. Testing is not required for magnet schools, magnet cluster schools, or open enrollment schools. Testing is only required for Selective Enrollment Elementary Schools (Academic Centers, Classical Schools, International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners.)
7. There are two different types of admissions exams administered to students applying to Selective Enrollment Elementary Schools – one for Classical Schools and one for Academic Centers, International Gifted Programs, and Regional Gifted Centers.
8. The admissions exams used for the Selective Enrollment Elementary Schools are designed to assess your child's academic capabilities or reasoning and thinking skills. The Chicago Public Schools does not recommend, endorse or sponsor ANY test preparation courses, study guides, or sample questions for the Selective Enrollment Elementary Schools testing process.
9. Selective Enrollment Elementary Schools have minimum requirements in order for students to be eligible to

test for grades 5-8. Eligibility for applicants to grades 5-8 for Selective Enrollment is based on the student's scores on the Northwest Education Association Measures of Academic Progress (NWEA MAP). The NWEA MAP is administered to CPS public, charter, and contract school students. CPS also administers the NWEA MAP, free of charge, to non-CPS students who are applying for grades 5-9. (Only scores from the NWEA MAP administered by CPS will be accepted for the application process.) If your child is a non-CPS student applying for grades 5-8 and you have not yet registered him/her for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu before the December 22, 2017, deadline. Note that if you register after October 2, 2017, for the January 2018 test, you will have to submit paper applications. If you have not registered your child for the NWEA MAP, his/her Selective Enrollment application will not be processed and he/she cannot be considered for any Selective Enrollment schools.

10. All online test scheduling and applying must be completed by 11:59 p.m. on December 22, 2017, even if you are scheduling for a test session after that date.
11. If you mail a paper application, we highly recommend that you: (1) send your application via certified mail, so that you have a receipt, (2) include a self-addressed, stamped postcard or envelope, which will be mailed back to you once your application is received (if you do not receive your envelope/postcard within two weeks, contact the Office of Access and Enrollment), and (3) send your application in plenty of time to ensure that it is received by the Office of Access and Enrollment by the application deadline. If your child's application is not received, and you cannot provide documentation containing evidence that it was mailed to the Office of Access and Enrollment, your child cannot be considered for the schools in which you are interested.
12. Your child does not have to be a resident of the city of Chicago in order to submit an application and participate in the selection process. However, your child must live in Chicago in order to enroll in and attend any Chicago public school. Proof of residency for the 2018-2019 school year is required by July 1, 2018.
13. Don't apply to schools that you don't want your child to attend. If a school is too far from your home, or there are other reasons why you would not accept an offer if you receive it, please do not include the school on your application.
14. Waitlists are void after one year. If your child is not contacted from a waitlist from last year's process, you will need to reapply to the school(s) in which you are interested.
15. Selective Enrollment Elementary Schools (Academic Centers, Classical Schools, the International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners) have minimum requirements in order for students to be eligible to apply. Students who have an Individualized Educational Program (IEP) have minimum application requirements that differ from general education students. Students with a 504 Plan have the same minimum eligibility requirements as general education students. However, any testing accommodations identified in students' 504 Plans will be provided for the purposes of the Selective Enrollment admissions exams.
16. Proximity lotteries are only conducted for entry-level grades at magnet schools. For most schools, the entry-level grade is kindergarten. There are a few exceptions: the entry-level grade at Drummond, Mayer, and Suder is the three-year-old prekindergarten, and the entry-level grade at Inter-American is the four-year-old prekindergarten. If you are applying to a magnet school to a non-entry grade level, your child will not be included in a proximity lottery. (Note that magnet schools with attendance boundaries do not have proximity lotteries.)
17. Sibling applicants are only given preference at magnet, magnet cluster, and open enrollment schools; there is no sibling preference or consideration for Selective Enrollment Elementary Schools. In order to qualify for sibling consideration, the applicant must have a sibling who is currently enrolled, and will remain enrolled for the 2018-2019 school year, in the school to which he/she is applying. The currently enrolled

sibling and the sibling applicant must live in the same household. (The term sibling applies only to natural siblings, step siblings, foster siblings and adopted siblings.) The application must include the currently enrolled student's last name, current school name, and CPS ID number.

18. For non-selective enrollment elementary schools and all district high schools that select students through a computerized lottery, two seats will be allocated at the entry level grade for children of teachers or staff members currently employed at that school. If there are more than two children who qualify and apply for these seats, a lottery will be held and seats will be filled by computerized lottery. For the purposes of this policy, the term children means natural children, stepchildren, foster children and adopted children, as evidenced by documentation required by the CEO or designee. If there are minimum criteria for a school, the student must meet eligibility requirements in order to qualify.
19. You can only apply to four magnet preschools through the Options for Knowledge process for admission in the 2018-2019 school year: Drummond, Inter-American (four-year-olds only), Mayer, and Suder. The application process for most preschools for the 2018-2019 school year will take place in spring 2018 through the Chicago Early Learning process. Contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for more information on this process. **NOTE!** If your child turned 3 years old by September 1, 2017, and he/she is not enrolled in a preschool program but you are interested in immediate placement, contact the Office of Early Childhood Education at 773-553-2010 to inquire about current openings in a Chicago Early Learning preschool program.
20. If you are found to have engaged in fraud in order for your child to gain entrance to a Selective Enrollment School or a magnet, magnet cluster, or open enrollment school, your child will be subject to removal from the school. In addition, any student found to have engaged in fraud based on a falsified Selective Enrollment application will be permanently banned from attending any Selective Enrollment School or program for the life of the student's enrollment in the Chicago Public Schools. All families submitting applications should be aware that fraud will not be tolerated within the Chicago Public Schools system.
21. The address on your child's application must be your primary address, which is defined as your child's regular, fixed nighttime abode. In addition, note that it must be your primary address at the time you submit your application.

Remember: The application deadline is December 22, 2017.

Online applications must be submitted by 11:59 p.m. on this date.

Paper applications that are hand-delivered or mailed must be received by the Office of Access and Enrollment by 5 p.m. on this date.

(NOTE that this is NOT a postmarked date.)

If you have any questions, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu.

APPLICATION TIP #4

If your children are multiples (twins, triplets, etc.), be sure to submit a separate application for each student. You must indicate on the applications that each student is a multiple in order for them to be linked in the selection process.

APPLICATION TIP #5

If you are applying to Selective Enrollment schools, and you are using the online application portal, note that you will use a TWO-STEP PROCESS: (1) Apply, THEN (2) Schedule. Both steps MUST be completed by the December 22nd application deadline. If you do not submit an application indicating the schools to which you are applying, and schedule your child's exam(s) before the application deadline, your child will not be considered for these schools.

APPLICATION TIP #6

Planning to mail your applications? We STRONGLY recommend that you:

(1) send your envelope via certified mail so that you will have a receipt that you mailed the applications, (2) include a self-addressed, stamped envelope or postcard. The envelope/postcard will be mailed back to you once your applications are received. This will serve as your proof that your applications were received. If you do not receive your envelope/postcard within two weeks, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu, as this is an indication that your applications were not received.

BE SURE TO MAIL YOUR APPLICATION(S) IN PLENTY OF TIME BEFORE THE DEADLINE. APPLICATIONS MUST BE RECEIVED BY THE DEADLINE DATE -- NOT POSTMARKED.

FREQUENTLY ASKED QUESTIONS: QUESTIONS-IN-COMMON

The following provides answers to frequently asked questions that are common to both the Standard Elementary Schools application and the Selective Enrollment Elementary Schools application.

GENERAL QUESTIONS

How old does my child have to be to start kindergarten next year?

Your child must be five years old on or before September 1, 2018, in order to apply for kindergarten enrollment for the 2018-2019 school year.

How old does my child have to be to start first grade next year?

Your child must be six years old on or before September 1, 2018, in order to apply for first grade enrollment for the 2018-2019 school year.

Are there any exceptions to the age requirements?

Yes – for first grade enrollment only. **NOTE: If you submit a First Grade Age Exception form, you MUST apply using a paper application. You cannot apply online if you submit a First Grade Age Exception form. In addition, if you are exercising the age exception, you must use it for all programs to which you are applying; you cannot apply to kindergarten for one program and first grade to another.**

If your child will become six years old between September 2, 2018 - December 31, 2018, your child may qualify for an exception to the age requirement for first grade enrollment. To qualify for this exception, your child:

- (1) must become six years old between September 2, 2018 - December 31, 2018;
- (2) must have attended preschool and kindergarten at the same non-public school, or the same public school outside Illinois;
- (3) must have been taught in kindergarten by an appropriately certified teacher; and
- (4) must be deemed ready by the non-public school (or the public school outside Chicago) to work at the first grade level.

In order to apply under the first grade exception, you will need to complete and submit a First Grade Age Exception form. For a copy of this form, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu.

If you are applying for first grade enrollment for your child under this age exception, you must: (a) submit the First Grade Exception form to the Office of Access and Enrollment by December 22, 2017, and (b) provide the Office of Access and Enrollment by July 1, 2018, a letter from the principal/head administrator of your child's current non-public school (or public school outside Chicago) that affirms each of the following: that (1) your child has attended the same school for preschool and kindergarten, (2) your child's kindergarten teacher is appropriately certified, and (3) your child has been assessed as ready to work at the first grade level. If this signed letter is not provided by this deadline, any seat awarded through the Options for Knowledge application process may be forfeited.

What if I apply for first grade under the age exception and do not satisfy the four requirements, or I do not submit the qualifying documentation by July 1, 2017?

If your child does not satisfy the four requirements, or if the qualifying documentation is not provided by the deadline, any seat awarded through the Options for Knowledge application process may be forfeited. Once forfeited, your child will not be entitled to move to a kindergarten seat at that school.

My son was born in late August. I would rather wait another year and apply for him to start kindergarten next September instead. Can I do this?

No – this is not permitted under CPS policy. For kindergarten and first grade, CPS will enroll students in the grade

that is appropriate for their age. If you are applying for kindergarten or first grade, please note the following chart:

If your child was born between these dates:	Your child's appropriate grade for 2018-2019 is:
September 2, 2012 through September 1, 2013	KINDERGARTEN
September 2, 2011 through September 1, 2012	FIRST GRADE
September 2, 2012 – December 31, 2012 - if first grade age exception requirements have been satisfied.	FIRST GRADE

If you do not apply for the grade that is appropriate or your child, your child's application will be marked ineligible for the 2018-2019 application process.

Students applying to second grade or higher are not required to adhere to the September 1st guidelines. However, you should be aware that the Regional Gifted Centers and Classical Schools offer a highly rigorous and accelerated curriculum. Our goal is to match the program with the student and ensure that the student does not experience undue academic stress, thereby ensuring their success. As a result, you are encouraged to take your child's age into account when applying for these programs for primary grades higher than first grade. Also note that a student is allowed to test for one grade level only.

If my child isn't accepted to any schools, will I have another chance to apply for the 2018-2019 school year?

Yes. If additional spaces are available after the fall application process has ended, an additional application process will be offered in the spring by the Office of Access and Enrollment. This process, known as the End-of-Year Citywide Options Program applies only to magnet, magnet cluster, and open enrollment schools; Selective Enrollment Elementary Schools do not participate in the End-of-Year process.

APPLICATION QUESTIONS

Can I change my choices after I submit my child's application?

It is highly recommended that you do all of your research, including attending Open Houses, visiting school communities, etc., BEFORE you make your final decisions and submit your applications. However, if you need to modify your choices, and you apply using the online application portal, you can make your choice changes online. If you need to modify your choices, and you apply via paper application, you must contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a paper Application Modification Form. There are separate forms for the Standard Elementary Schools application and the Selective Enrollment Elementary Schools application. Your changes must be received by the Office of Access and Enrollment no later than December 22, 2017.

The application asks for a CPS ID number. What is this?

Students who are currently enrolled in a Chicago public school, charter school, or contract school have a CPS identification number. You can find this number on your child's report card or the Parent Portal (<https://parent.cps.k12.il.us/pc/default.aspx>) or obtain it by contacting his/her school. If your child is not enrolled in a Chicago public, charter, or contract school, you will leave this section blank.

The application requests racial/ethnic information on my child. Is this information used as part of the selection process?

No. This is for informational purposes only. The student's racial/ethnic category is not used as part of the selection process. Please identify whether or not your child is Hispanic/Latino **and** complete the racial category information.

The application asks for my primary address. What is this?

Your primary address is defined as your child's regular, fixed nighttime abode. You cannot use the address of a property that you own or rent if your child does not sleep there at night.

I share joint custody with my child's father/mother. Whose address should I use?

If you share joint custody and your child sleeps at night at only one residence the majority of the time, that is the

child's primary address, and that is the address that must be entered on the application. In cases of joint custody where a child's residence is equally divided between two addresses, either address may be used. However, the address of only ONE parent can be used; students cannot be considered for schools by using more than one address, and students cannot submit applications with different addresses. The address that is used for the application and selection process must be the same, single address. If a student submits applications with more than one address, the student will be considered for the selection process using the address on the first application that is processed by the Office of Access and Enrollment.

IEP/504 PLAN QUESTIONS

Do I have to submit my child's IEP/504 Plan with his application?

Information from a child's IEP or 504 Plan is only needed if you are applying for the Selective Enrollment Elementary Schools. If your child attends a Chicago public, charter, and contract school, CPS will obtain his/her IEP or 504 Plan from the CPS Student Information System. CPS can also access the IEPs/504 Plans of private/parochial school students who have had their IEP/504 Plans developed by the Chicago Public Schools.

If your child attends a private or parochial school, or a public school outside of Chicago, and his/her IEP or 504 Plan was developed by a public school system outside of Chicago, please submit the most recent version of your child's IEP or 504 Plan to the Office of Access and Enrollment.

SELECTION QUESTIONS

I have twins. Can they be selected to attend school together?

For applications to magnet, magnet cluster, or open enrollment schools, parents of twins, triplets and other higher order multiple births have the option of linking their applications together so that the students are either admitted together or placed next to each other on the waitlist. If you choose not to indicate on the application that your children are multiples, their applications will be independently processed in the lottery and their applications will not be linked. (The admission policy adopts the traditional meaning of twins and multiples, meaning siblings produced in the same pregnancy. Under this policy, the terms twins and multiples do not include siblings adopted during the same year, adopted siblings born during the same 12-month period, biological siblings born during the same 12-month period, or any other circumstance in which siblings are close in age.) Twins, triplets, and other multiples do not have preference or consideration when applying to Selective Enrollment Elementary Schools.

CONTACT QUESTIONS

Who should I contact to obtain this guide in an alternate format?

You can contact the ADA administrator at (773) 553-1187 (Voice).

Who should I contact if I have more questions?

For further information, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu. You may also wish to contact the following CPS departments:

Charter Schools	(773) 553-1530
Special Education Services	(773) 553-1800
Student Transportation	(773) 553-2860
Early Childhood Programs	(773) 553-2010

A CLOSER LOOK: THE SELECTION PROCESS

Students are selected for the schools in this guide in accordance with the Admissions Policy for Magnet, Selective Enrollment and Other Options for Knowledge Schools and Programs. The following provides information regarding the impact of the policy on the selection process for magnet, magnet cluster, open enrollment, and Selective Enrollment Elementary Schools.

Socio-Economic Tiers

Every Chicago address falls within a specific census tract. We look at five socio-economic characteristics for each census tract: (1) median family income, (2) percentage of single-parent households, (3) percentage of homes

where English is not the first language, (4) percentage of homes occupied by the homeowner, and (5) level of adult education attainment. We also look at a sixth characteristic, the achievement scores from attendance area schools in each census tract. Based on the results of each of these six areas, each census tract is given a specific score; these scores are ranked and divided into four groups – or 'tiers' – each consisting of approximately the same number of school-age children. This is how we establish the four tiers. Consequently, every Chicago address falls into one of the four tiers, based on the characteristics mentioned above. Updated tiers are generally posted in October. To find your tier, follow these instructions:

1. Go to www.cps.edu/map.
2. Type in your address in the box at the top left of the page.
3. A box will appear on the left side of the page that identifies your neighborhood schools. The box also shows the tier in which you live.

If you do not have internet access, contact the Office of Access and Enrollment at (773) 553-2060 or go cps@cps.edu to find out the tier in which your home address is located.

Magnet, Magnet Cluster, and Open Enrollment Schools

For magnet schools, magnet cluster schools, and open enrollment schools, the first seats are offered to applicants who are siblings of students who are currently enrolled, and who will be still enrolled, in the school in the 2018-2019 school year. (If more siblings apply than there are seats available, a computerized sibling lottery will be conducted to fill the available spaces.) Sibling preference will only be given if the application indicates that the student is applying as a sibling and this information has been verified.

After the siblings are accommodated, the next 40% of the available seats in magnet schools are designated for students who live within the school's proximity (a 1.5 mile radius of the school). After the proximity students are accommodated, the remaining seats are distributed evenly among the four tiers, and the seats are filled by computerized lottery. (Note that the distribution of seats among the four tiers and the proximity applies to the entry-grade level only – for most elementary schools, the entry-grade level is kindergarten. In the three Montessori magnet schools, the entry-grade level is the PreK-3 level, and in Inter-American Magnet School, the entry-grade level is the PreK-4 level.) There is no proximity or tier consideration for non-entry grades in magnet schools, or in elementary magnet cluster schools and open enrollment schools at any grade level. In addition, proximity lotteries are not conducted for magnet schools that have an attendance boundary, or for magnet schools where at least 50% of the students reside in the neighborhood and at least 50% are of a single racial/ethnic group.

Selective Enrollment Elementary Schools

For the entry-grade levels at Selective Enrollment Elementary Schools, the first 30% of available seats at each school are filled strictly according to the student scores – also referred to as the 'rank' score – the seats are filled by the top-scoring students. The remaining seats are equally distributed among the four tiers and are filled by the highest-scoring students in each tier. In non-entry level grades, students are selected on the basis of their admissions results alone. There is no sibling preference for Selective Enrollment Elementary Schools.

standard elementary application

Please complete the Standard Elementary Application to apply to following types of schools:

- elementary magnet schools
- magnet cluster schools
- elementary open enrollment schools

APPLICATION TIP #7

If you apply using the online application site, you will see that the magnet, magnet cluster and open enrollment schools are referred to as Non-Selective schools. You can apply to up to 20 of these schools. The online site will provide a counter that will keep track of the number of schools to which you apply.

standard elementary

frequently asked questions

GENERAL QUESTIONS

For what types of schools should I use the Standard Elementary Application?

The Standard Elementary Schools application should be used for elementary magnet schools, magnet cluster schools, and elementary open enrollment schools.

Is transportation provided? *

- *Magnet schools:* In most cases, school bus transportation is provided to students attending elementary magnet schools who live more than 1.5 miles but less than 6 miles from the school. Students attending Davis, Disney II, Kershaw, LaSalle II, and Mayer do not receive busing. However, Student Transportation Services provides Chicago Transit Authority (CTA) fare cards or travel reimbursements for parents and guardians of students at these schools who qualify for transportation. In addition, school bus transportation, fare cards, and transportation reimbursements are NOT available for Drummond Montessori Magnet School.
- *Magnet cluster school/open enrollment schools:* Transportation is **not** provided for students in magnet cluster schools or open enrollment schools.

Transportation is provided to students with disabilities if the IEP or 504 Plan requires it; for information, contact the Office of Diverse Learner Supports and Services at (773) 553-1800. Transportation may also be provided to homeless students upon enrollment; for information, contact the Office of Educational Support for Students in Temporary Living Situations at (773) 553-2242.

*Please note: Due to the extreme budgetary pressures facing the District, the Board of Education will be reviewing all transportation policies to determine its ability to fund ongoing programs including those related to magnet, gifted, and selective enrollment programs as well as many others throughout the District for the 2018-2019 school year. When making choices about school applications for your child, please keep in mind that current transportation policies and guidelines could be subject to change. If our transportation policy should change, updated information will be available on go.cps.edu.

APPLICATION QUESTIONS

Is there a limit to the number of schools to which I can apply on the Standard application?

Yes, you can apply to up to 20 schools, in any combination of magnet, magnet cluster, and open enrollment schools.

Do I have to apply for the maximum number of schools?

No. You should apply only to those schools where you would accept an offer. If a school is too far from your home, or there are other reasons why you would not accept an offer if your child receives one, please do not include that school on your application.

How do I apply?

You can apply online, or by using a paper application. Instructions for both options are as follows:

Online Application	Paper Application
<ul style="list-style-type: none"> • Go to go.cps.edu. • Click 'Apply.' Create a user name and password, and follow the instructions to enter the information for the primary parent/guardian and any students for which you are applying. • Once you have added your student(s), you will see a list of all the schools to which your child is able to apply. This list will include both Non-Selective and Selective Enrollment Schools. (Non-Selective Schools consist of magnet, magnet cluster and open enrollment schools. Selective Enrollment schools, which require testing, consist of Academic Centers, Classical Schools, the International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners.) • Select up to 20 Non-Selective schools of your choice. (If you want to ALSO apply to Selective Enrollment schools, you will select them at this time.) • Submit your application by 11:59 p.m. on December 22, 2017, when complete. • You will receive an email confirmation when your application has been successfully submitted. 	<ul style="list-style-type: none"> • Use the paper Standard Elementary Schools Application accessible on the GoCPS website, go.cps.edu (click 'How to Apply' and 'Elementary Schools'). • Select up to 20 schools by entering a school code for each school to which you are applying. The codes can be found in the school listing at the end of this section, as well as on the GoCPS website. • Sign your completed application and mail or hand-deliver it to the Office of Access and Enrollment. Applications must be RECEIVED by December 22, 2017. • If you mail your application, we strongly encourage you to (1) send your application via certified mail, so that you have a receipt, (2) include a self-addressed, stamped postcard or envelope, which will be mailed back to you once your application is received (if you do not receive your envelope/postcard within two weeks, contact the Office of Access and Enrollment) and (3) send your application in plenty of time to ensure that it is received by the Office of Access and Enrollment by the application deadline. If your child's application is not received, and you cannot provide documentation containing evidence that it was mailed to the Office of Access and Enrollment, your child cannot be considered for the schools in which you are interested.

I want to apply to more than 20 schools. Can I submit a second application?

No. The maximum number of elementary magnet, magnet cluster and elementary open enrollment schools to which you can apply is 20. You may not submit a second application in order to apply to additional schools. If a duplicate application is submitted, only the schools on the first application processed by the Office of Access and Enrollment will be considered.

Can I list the schools in order of preference?

No. All schools on the Standard Elementary Schools application are considered equally in separate lotteries. As a result, you can receive an offer from more than one magnet, magnet cluster, and/or open enrollment school.

My child is going to preschool next year. How do I apply?

The magnet programs at most elementary schools begin at the kindergarten level, not the preschool level. There are only four schools where the magnet program begins at the preschool level and feeds directly into kindergarten: Drummond, Inter-American, Mayer, and Suder magnet schools. (This means that preschool students at these schools do not have to submit an application for a seat in kindergarten.) To apply to the preschool programs at one of these four magnet schools, you will use the Options for Knowledge Standard Elementary Schools application.

The application process for all other preschools for the 2018-2019 school year will take place in spring 2018. Visit

www.chicagoearlylearning.org for more information. **NOTE!** If your child turned three years old by September 1, 2017, and he/she is not enrolled in a preschool program but you are interested in **immediate** placement, visit www.chicagoearlylearning.org. In addition, if you are interested in Tuition-Based Preschool for the 2018-2019 school year, contact the Office of Early Childhood Education at 773-553-2010.

My child is currently enrolled in a preschool program at a Chicago public school. Do I have to submit an application for kindergarten, or will my child be automatically accepted for the kindergarten class?

If your child attends preschool at the neighborhood designated for your address, or if your child attends one of the four magnet preschools (Drummond, Inter-American, Mayer, or Suder), he/she does not have to submit an application for kindergarten. However, if your child is in a preschool program at any other Chicago public school, you must need to submit an Options for Knowledge application if you want your child to be considered for kindergarten.

IEP/504 PLAN and EL QUESTIONS

Can students with disabilities apply to magnet schools and programs?

All students with disabilities are eligible to apply to magnet schools and programs. Appropriate services within these programs will be provided to meet the student's individual needs as delineated on the Individualized Education Program (IEP). If a student with a mobility impairment is selected by lottery for a magnet school or program that is not accessible, transportation will be provided to a comparable magnet program at an accessible school.

Can English Learners (ELs) apply to magnet schools and programs?

Yes. All ELs are eligible to apply to magnet schools and programs.

SELECTION QUESTIONS

Does my child have to take a test to get into these schools?

No. Elementary magnet schools, magnet cluster schools, and elementary open enrollment schools are designed for all students, and students are randomly selected through a computerized lottery. No testing is required.

What is a computerized lottery?

Computerized lotteries ensure that all students have an equal chance to be accepted at schools that do not require testing. A computer program randomly selects students to fill the spaces in each grade. There are three types of lotteries:

- Sibling lottery: conducted only for students who have a brother or sister in the same household who already attends the school to which the student is applying, and who will still be enrolled in that school in the 2018-2019 school year.
- Staff preference lottery: conducted only for students who are applying for the entry grade level to a school where their parent/guardian is on the staff, a brother or sister in the same household who already attends the school to which the student is applying, and who will still be enrolled in that school in the 2018-2019 school year.
- Proximity lottery: conducted at magnet schools only. This lottery is for applicants who live within a 1.5 mile radius of the elementary magnet school. (Note: If more than 50 percent of the entire student body is comprised of students within the proximity, and if more than 50 percent of the student body is any one racial or ethnic group, no proximity lottery will be held for that school. The proximity preference is for entry-grade levels only. For most elementary schools, this is kindergarten. In the three Montessori magnet schools – Drummond, Mayer, and Suder – the entry-grade level is the PreK-3 level, and in Inter-American Magnet School, the entry-grade level is the PreK-4 level. There is no proximity lottery at non-entry-level grades.)
- General lottery: conducted for all students not included in the sibling or proximity lotteries (for entry-level grades, the available seats are divided among the four tiers).

Students who are not selected for a seat through the computerized lottery are assigned a number on a waitlist.

How do the waitlists work?

After the available spaces in each grade are filled through the computerized lottery, waitlist numbers are randomly assigned by the computer program, beginning with number 1, to the remaining students in each category. Parents of students who are selected in the lottery are given approximately three weeks to accept an offered space. After the deadline for accepting an offer, principals must fill any remaining spaces through the waiting list, beginning

with number 1 and offering the available seats to students based on their category. Principals are not allowed to contact students outside of the waiting list order, and offers must be made to replace students in the same category. (Note that when parents of waitlisted students are contacted, they will be given 24-48 hours to accept or decline a seat. Be sure to include at least one telephone number on your application where you can be reached at all times.)

I am applying for my son to a magnet school where his sister is enrolled. Will my son automatically be selected?

Sibling applicants to elementary magnet, magnet cluster, or elementary open enrollment schools will be offered seats to the extent that space is available. If a school receives more applications from siblings than there are seats available, a computerized lottery will be conducted to fill the seats. In order to be eligible, the enrolled sibling and the sibling applicant must live in the same household and must be attending the same school for the 2018-2019 school year. (The term sibling means natural siblings, step siblings, foster siblings and adopted siblings.) Your child cannot be accepted as a sibling for the 2018-2019 school year if the currently enrolled sibling graduates in June 2018 or transfers to another school for the 2018-2019 school year. If the enrolled sibling graduates or transfers to another school, your child's offer will be rescinded and he/she will be placed in the general applicant queue. If you do not provide identifying sibling information on your child's application, your child will not be given sibling preference in the selection process.

I am applying to schools for both of my children for next year. Will they be considered as siblings?

The sibling policy applies only to applicants to magnet, magnet cluster, or open enrollment schools if you already have a child currently enrolled in the school to which you are applying (and if that child will remain enrolled in that school for the school year for which you are applying). If you are applying for more than one child, and you do not have another child currently enrolled in the school to which you are applying, the sibling policy does not apply. If your children are twins, triplets, or other multiples, they will be linked in the selection process. NOTE that you must submit a separate application for each student.

I already have a child enrolled at a Chicago public school and I want his sibling to attend next year. Do I have to apply?

Yes! You must submit an application to any school outside of your designated neighborhood school if you want your child to be considered for enrollment, even if you already have a child enrolled.

Can my child be selected for more than one school?

The selections for each type of school on the Standard Elementary Application are conducted independently from each other. Therefore, your child can be selected for any number of magnet, magnet cluster, and/or open enrollment schools, depending on the number of schools to which you apply.

ACCEPTANCE/NOTIFICATION QUESTIONS

When will I find out if my child has been accepted?

Notifications will be released in April 2018. If you apply online, your notifications will be posted to your online account. If you apply via paper application, your notification letter will be sent to your home address via U.S. mail. Results cannot be given to parents via telephone.

If my child receives an offer from School A, and is on the waitlist for other schools, will she be removed from the waitlists at other magnet, magnet cluster, or open enrollment schools if I accept the offer from School A?

No. Accepting an offer from a school where your child is selected does not affect your child's waitlist status. You can accept an offer and, if you later receive an offer from a school where your child was waitlisted, you can accept that offer instead, if you wish. In addition, accepting an offer from a magnet, magnet cluster, or open enrollment school does not affect your child's status in the applicant pool for the Selective Enrollment Elementary Schools selection process. Should you choose to accept a later offer, you will be responsible for notifying the first school of your child's change in status.

INTER-AMERICAN MAGNET SCHOOL 851 W. Waveland Ave. 60613; (773) 534-5490	4890IN	Pre4-8	Dual Language Immersion Magnet (Spanish); Dual Language Program <i>Inter-American's preschool program begins at age 4. The preschool program is a half-day program. If you are applying for grades Pre4-2, please indicate on your application whether your child's primary language is English or Spanish. If you are applying to grades 3-8, your child must already be proficient in Spanish to participate in the Dual Language Immersion program. At the time of registration, your child will participate in a language screening to confirm language selection. If your child does not demonstrate proficiency in the language for which they are applying (grades Pre4-2), or is not proficient in Spanish (grades 3-8), your child will lose his/her seat in the class.</i>

selective enrollment elementary schools

frequently asked questions

GENERAL QUESTIONS

What kind of schools are Selective Enrollment Elementary Schools?

Selective Enrollment Elementary Schools is the umbrella term for Academic Centers, Classical Schools, the International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners.

Does my child have to take a test to get into these schools?

Yes. Admissions testing is required for these schools.

Are there any other options for gifted and talented students?

Yes. The Chicago Public Schools also offers comprehensive gifted and specific aptitude programs within selected elementary magnet, magnet cluster, and elementary open enrollment schools throughout the city. Comprehensive Gifted Programs serve grades 1-8 and cover all core subjects. Specific Aptitude Programs are pullout programs in specific subjects and serve varying grades. For both types of programs, students are assessed by the school after they are enrolled as an attendance area student or through the computerized lottery process. For a list of schools that offer these programs, see the index.

Is transportation provided?

Regional Gifted Centers: Transportation is provided to Regional Gifted Center students who reside more than 1.5 miles from the school. In addition, for the following Regional Gifted Centers, students must also live between the identified transportation ranges:

SCHOOL	NORTH/SOUTH RANGE	EAST/WEST RANGE
Carnegie	3900 South and 7500 South	Lake Shore Drive to the west city limits
Coonley	900 North and the North city limits	Lake Shore Drive to the west city limits
Nat'l Teachers Academy	500 South and 5900 South	Lake Shore Drive to Cicero
South Loop	400 North and 3900 South	Lake Shore Drive to the west city limits

Classical Schools: Transportation is provided to Classical School students who reside more than 1.5 miles from the school and within the boundaries identified below.

SCHOOL	NORTH BOUNDARY	SOUTH BOUNDARY
Decatur	North City Limits	Fullerton Avenue (2400 North)
McDade	Pershing Road (3900 South)	106th Street South
Poe	71st Street South	South City Limits
Skinner North	Foster Avenue (5200 North)	Cermak Road (2200 South)
Skinner West	Fullerton Avenue (2400 North)	Pershing Road (3900 South)

Academic Centers and the International Gifted Program: Transportation is provided to students who live more than 1.5 miles from the school. Students must travel to a designated pick-up location.

Transportation is provided to students with disabilities if the IEP or 504 Plan requires it; for information, contact the Office of Diverse Learner Services and Supports at (773) 553-1800. Transportation may also be provided to homeless students upon enrollment; for information, contact the Office of Educational Support for Students in Temporary Living Situations at (773) 553-2242.

Please note: Due to the extreme budgetary pressures facing the District, the Board of Education will be reviewing all transportation policies to determine its ability to fund ongoing programs, including those related to magnet, gifted, and selective enrollment programs, as well as many others throughout the District for the 2018-2019 school year. When making choices about school applications for your child, please keep in mind that current transportation policies and guidelines could be subject to change. If our transportation policy should change, updated information will be available on go.cps.edu.

Do I have to apply for the maximum number of schools in each program?

No. You should apply only to those schools where you would accept an offer if your child receives one. If a school is too far from your home, or there are other reasons why you would not accept an offer from a school, please do not apply to that school.

APPLICATION QUESTIONS

How do I apply?

You can apply online or by using a paper application. Instructions for both options are on the following page.

APPLICATION TIP #8

If you are using the online application portal to apply to Selective Enrollment Schools, be aware that this is a TWO-STEP PROCESS: (1) Apply, THEN (2) Schedule. Both steps must be completed by the December 22nd application deadline. If you have not submitted an application identifying the schools in which you are interested, and scheduled your child's exam(s) before the deadline, your child will not be included in the selection process for these schools.

APPLICATION TIP #9

You are not REQUIRED to apply to the maximum number of schools allowed. If a school is too far from your home, or there are other reasons why you would not accept an offer if your child receives one, DO NOT APPLY TO THE SCHOOL. For example, you can apply to up to six Regional Gifted Centers and Classical Schools, in any combination. If there are only two Regional Gifted Centers and two Classical Schools where you would accept an offer, then those are the only Regional Gifted Centers and Classical Schools to which you should apply.

Online Application	Paper Application
<ul style="list-style-type: none"> • Go to go.cps.edu. • Click 'Apply.' Create a user name and password, and follow the instructions to enter the information for the primary parent/guardian and any students for which you are applying. • Once you have added your student(s), you will see a list of all the schools to which your child is able to apply. This list will include both Non-Selective and Selective Enrollment Schools. (Non-Selective Schools consist of magnet, magnet cluster and open enrollment schools. Selective Enrollment schools, which require testing, consist of Academic Centers, Classical Schools, the International Gifted Program, Regional Gifted Centers, and Regional Gifted Centers for English Learners.). • Depending on the grade to which your child is applying, select up to six Academic Centers (grades 7-8), up to six Classical Schools/Regional Gifted Centers (using any combination), one International Gifted Program, and up to three Regional Gifted Centers for English Learners. (If you want to ALSO apply to Non-Selective schools, you will select them at this time.) • Submit your application by 11:59 p.m. on December 22, 2017, when complete. • You will receive an email confirmation when your application has been successfully submitted. • If you are applying to grades 5-8, your child must pre-qualify for the admissions exam based on his/her NWEA MAP scores. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. Note that if you register after October 2, 2017, you will have to submit paper applications for the programs in which you are interested. • Follow the instructions to schedule your child to test for the schools to which you applied. • You will receive an email confirmation when your application has been successfully submitted. 	<ul style="list-style-type: none"> • Use the paper Selective Enrollment Elementary Schools Application (accessible from the GoCPS website, go.cps.edu click 'How to Apply' and 'Elementary Schools'). • If you are applying to grades 5-8, your child must pre-qualify for the admissions exam based on his/her NWEA MAP scores. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. • Depending on the grade to which your child is applying, select up to six Academic Centers (grades 7-8), one International Gifted Program, up to six Classical Schools/Regional Gifted Centers (using any combination), and up to three Regional Gifted Centers for English Learners. • Sign your completed application and mail or hand-deliver it to the Office of Access and Enrollment. Applications must be RECEIVED by December 22, 2017. • If you mail your application, we strongly encourage you to (1) send your application via certified mail, so that you have a receipt, (2) include a self-addressed, stamped postcard or envelope, which will be mailed back to you once your application is received (if you do not receive your envelope/postcard within two weeks, contact the Office of Access and Enrollment) and (3) send your application in plenty of time to ensure that it is received by the Office of Access and Enrollment by the application deadline. If your child's application is not received, and you cannot provide documentation containing evidence that it was mailed to the Office of Access and Enrollment, your child cannot be considered for the schools in which you are interested.

My child is currently enrolled in a Selective Enrollment Elementary School. I would like for him to attend a different Selective Enrollment Elementary School. How can I transfer him to the other school?

In order for your child to be considered for a different selective enrollment school or program, you will have to submit an application, during the application period, and your child will have to participate in the testing process for the school in which you are interested. You cannot transfer your child without participating in the application and selection process.

TESTING QUESTIONS

What are the requirements for students to qualify for the admissions exam?

The following provides information on the requirements for each type of program, by grade:

Grades K-4: All age-appropriate students applying for kindergarten through grade 4 will be tested. Note that students must be able to separate from their parents to walk with the examiner to the assessment room. Parents are not allowed to accompany children into the assessment area.

Grades 5-8: Testing eligibility for students applying for grades 5-8 (except for the RGC-ELs) will be based on the student's NWEA MAP scores in reading and math. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017.

Academic Centers

In order to be eligible for testing, students must score at or above the 45th percentile in both reading and math.

Classical Schools

In order to be eligible for testing, students applying for grades 5-8 must score at or above the 60th percentile in both reading and math.

International Gifted Program

In order to be eligible for testing, students applying for grades 7-8 must score at or above the 60th percentile in both reading and math.

Regional Gifted Center

In order to be eligible for testing, students applying for grades 5-8 must score at or above the 60th percentile in both reading and math.

Regional Gifted Centers for English Learners

Testing eligibility for students applying for grades 5-8 will be based on the student's 2016-2017 reading and math final classroom grades. Students must have no lower than a B on their final grades in reading and math in order to be eligible.

Students with an IEP applying for grades 5-8 must score at or above the 50th percentile in one subject (reading or math), and at or above the 40th percentile in the other subject (reading or math) in order to be eligible for testing. **(NOTE!** Students with a 504 Plan have the same eligibility requirements as general education students. If students with a 504 Plan have testing accommodations, these will be provided at the testing site.)

If I submit a paper application, when will my child receive a test date?

Eligible students who submit paper applications are scheduled for test dates based on (1) when the application is processed, (2) the type of school(s) to which the student applies, (3) the grade to which the student is applying, and (4) test date availability. You will receive a test notification letter approximately two weeks prior to your child's scheduled test date. If you do not receive a letter by February 15, 2017, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu. Rescheduling is highly discouraged and cannot be guaranteed.

What should I do if my child is sick on his/her test date?

Do not take your child to test if he/she is ill. If you scheduled your child's test via the online application site, return to that site and schedule your child for another test date. If you submitted a paper application, contact the Office of Access and Enrollment at 773-553-2060 to make alternate arrangements. (The Office of Access and Enrollment can

be reached Monday through Friday, from 8 a.m. to 6 p.m.)

What content is contained on the SEES admissions test?

There are two types of admissions tests. The test for the Classical Schools program is an achievement skills test that assesses the student's reading and mathematics abilities. (Calculators are not permissible unless noted otherwise through an IEP or 504 Plan.) The test for the Academic Centers, International Gifted Program, and Regional Gifted Centers measures critical thinking skills, reasoning, problem solving, and mental control. Mental control is the ability to hold information in the short-term memory while performing a mental operation.

I am applying to Regional Gifted Centers and Classical Schools for my child. How many tests will he have to take?

If you apply to Regional Gifted Centers AND Classical Schools, your child will take two separate tests. If your child is applying to kindergarten, both tests will be on the same day. If your child is applying to any other grade, the tests will be administered on two separate days.

IEP/504 PLAN QUESTIONS

Are students with disabilities required to meet entrance test requirements for enrollment?

Students with disabilities are required to take entrance tests at schools that require them unless the student is placed by the Office of Special Education and Supports into a low incidence program at the school. Applicable test accommodations described in Section 10 (c) of the student's Individualized Education Program (IEP) or 504 Plan will be made available. For example, if a child has a fine motor impairment and cannot fill in the bubbles on the answer sheet, and his/her IEP requires that a scribe assist with completing the answer sheet, a person will be provided during the entrance exam to scribe for them. The goal is always to measure the student's knowledge or ability, and not the disability. However, to be considered for any program for academically advanced students, all applicants need to earn a score that demonstrates they can compete and succeed in an accelerated program. Depending on the applicant pool, some students with disabilities may be accepted with lower test scores than general education students. However, no student will be admitted whose score is not representative of a student who can succeed in an advanced environment.

What are the entrance test requirements for students with disabilities?

Students applying for grades K-4 do not have to pre-qualify. Testing eligibility for students applying to grades 5-8 is based on the student's NWEA MAP scores in reading and math.

Students with an IEP applying for grades 5-8 must score at or above the 50th percentile in one subject (reading or math), and at or above the 40th percentile in the other subject (reading or math) in order to be eligible for testing.

NOTE! Students with a 504 Plan have the same minimum eligibility requirements as general education students. However, any testing accommodations identified in students' 504 Plans will be provided for the purposes of the Selective Enrollment Elementary Schools admissions exams.

SELECTION QUESTIONS

How are students selected?

Applicants for the Regional Gifted Centers and Classical Schools are selected based on their admissions exam score, and applicants for the Academic Centers and International Gifted Program are selected based on a final point score. Selection for all applicants is in accordance with the admissions policy for magnet, selective enrollment and other Options for Knowledge programs.

How is the final point score determined for the Academic Centers and International Gifted Program?

The selection process for the Academic Centers and the International Gifted Program is based on a point system, with a maximum of 900 points. The final point score balances the admissions exam results with NWEA MAP scores and final classroom grades. The score consists of:

- The admissions exam (33 1/3% or 300 points)
- NWEA MAP scores in reading and math (33 1/3% or 300 points)
- Prior year's reading, math, science and social studies grades (33 1/3% or 300 points)

A rubric showing how the points are allotted for each of these three areas can be found at go.cps.edu. Click

'Resources.' If you do not have access to the internet, contact the Office of Access and Enrollment at (773) 553-2060 to have a copy of the rubric mailed to you.

If my child is not selected, is it possible for her to be selected later?

Yes. After the seats at each school are filled, the non-selected students will remain in an applicant pool. This is not a traditional waiting list, where students are assigned numbers – students are ranked by score in the applicant pool. If your child declines an offer or does not receive an offer, he/she will remain in the applicant pool and has a chance to receive an offer in a later selection round.

I am applying for my son to a Selective Enrollment Elementary School where his sister is enrolled. Will my son automatically be admitted?

No. There is no sibling preference or consideration for applicants to schools that require testing.

ACCEPTANCE/NOTIFICATION QUESTIONS

When will I find out if my child has been accepted?

Notifications will be released in April 2018. If you apply online, your notifications will be posted to your online account. If you apply via paper application, your notification letter will be sent to your home address via U.S. mail.

If I accept an offer from a Selective Enrollment Elementary School, can my child be selected for another Selective Enrollment Elementary School later?

No. If you accept an offer from a Selective Enrollment Elementary School, your child will be removed from the applicant pool for any other Selective Enrollment Elementary School programs for which you applied (e.g., Academic Centers, the International Gifted Program or Regional Gifted Centers/Classical Schools).

If I accept an offer from a Selective Enrollment Elementary School, does that remove my child from the waitlists she is on for the magnet schools and programs?

No. Accepting an offer from a Selective Enrollment Elementary School does not affect your child's status on any waitlists for magnet, magnet cluster, or open enrollment schools. You may accept an offer that you received from a Selective Enrollment Elementary School and, if you later receive an offer from a school where your child was waitlisted, you may accept that offer instead, if you wish. Should you choose to accept a later offer, you will be responsible for notifying the first school and the Office of Access and Enrollment of your child's change in status.

APPLICATION TIP #10

If you move to another residence after you submit your application, you will have to update your home address. If you apply online, you can update your address via your online portal. If you apply with a paper application, you will need to contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a Contact Information Modification Form. In order for a new address to be used for the process of determining tiers, proximity boundaries, and attendance boundaries, your update must be received by December 22, 2017.

selective enrollment elementary schools

the process: at a glance

You can apply online or by using a paper application. Instructions for both options are below.

Online Application	Paper Application
<ul style="list-style-type: none"> • Go to go.cps.edu. • Click 'Apply.' Create a user name and password, and follow the instructions to enter the information for the primary parent/guardian and any students for which you are applying. • If you are applying to grades 5-8, your child must pre-qualify for the admissions exam based on his/her NWEA MAP scores. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. Note that if you register after October 2, 2017, you will have to submit paper applications for the programs in which you are interested. • Once you have added your student(s), you will see a list of all the schools to which your child is able to apply. This list will include both Non-Selective and Selective Enrollment Programs. (Non-Selective Schools consist of magnet, magnet cluster, and open enrollment school. Selective Enrollment Schools, which require testing, consist of Academic Centers, Classical Schools, Regional Gifted Centers, and Regional Gifted Center for English Learners.) • Depending on the grade to which your child is applying, select up to six Academic Centers (grades 7-8), up to six Classical Schools/Regional Gifted Centers (using any combination), and up to three Regional Gifted Centers for English Learners. Rank the schools within each program in order of your preference. (If you want to ALSO apply to Non-Selective schools, you will select them at this time.) • Submit your application by 11:59 p.m. on December 22, 2017, when complete. • If you are applying to programs with admissions screenings, you will be prompted to schedule your appointments for these screenings. • Follow the instructions to schedule your child to test for the schools to which you applied. • You will receive an email confirmation when your application has been successfully submitted. 	<ul style="list-style-type: none"> • Use the paper Selective Enrollment Elementary Schools Application (accessible from the GoCPS website, go.cps.edu click 'How to Apply' and 'Elementary Schools'). • If you are applying to grades 5-8, your child must pre-qualify for the admissions exam based on his/her NWEA MAP scores. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. • Depending on the grade to which your child is applying, select up to six Academic Centers (grades 7-8), up to six Classical Schools/Regional Gifted Centers (using any combination), and up to three Regional Gifted Centers for English Learners. • Sign your completed application and mail or hand-deliver it to the Office of Access and Enrollment. Applications must be RECEIVED by December 22, 2017. • If you mail your application, we strongly recommend that you (1) send your application via certified mail, so that you have a receipt, (2) include a self-addressed, stamped postcard/envelope, which will be mailed back to you once your application is received, and (3) mail your application in plenty of time to ensure that it is received by the Office of Access and Enrollment on or before the application deadline. If you do not receive your postcard/envelope within two weeks, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu.

Procedures for Selective Enrollment Elementary Schools
Parents of interested students submit a Selective Enrollment Elementary Schools application to the Office of Access and Enrollment during the designated application period.
Parents can submit an application in one of two ways: online or via paper application.
All students must be tested. Students applying for grades K-4 are tested as long as they are age-appropriate and can separate from their parent at the test site. Students applying for grades 5-8 must pre-qualify.
There is no preference for applicants of siblings who are already enrolled.
There is no preference based on the student's home address.
Applicants for the Regional Gifted Centers and Classical Schools are selected based on test results and in accordance with the admissions policy for magnet, selective enrollment, and other Options for Knowledge schools.
Applicants for the Academic Centers and International Gifted Program are selected based on a final point score and in accordance with the admissions policy for magnet, selective enrollment, and other Options for Knowledge schools.
Notifications will be released in April 2018. Notifications for online applicants will be posted online. Letters for paper applicants will be mailed.
Online applicants can accept or decline an offer online. Paper applicants will accept or decline an offer by submitting a paper confirmation form to the Office of Access and Enrollment.
Eligible, non-selected students remain in an applicant pool, ranked by score.
Remaining seats are filled based on the applicant pool. Parents are contacted by the Office of Access and Enrollment.
Available seats are filled until early September 2018.

HELPFUL HINTS FOR FAMILIES OF STUDENTS WITH DISABILITIES

(Selective Enrollment Elementary School Testing)

The purpose of the selective enrollment entrance examination is to match students to educational programs that meet their needs. It is important that all students are afforded the opportunity to demonstrate their true level of achievement and ability. Our goal is to mitigate the effect of disabilities, to the maximum extent possible. This enables a student with a disability to be assessed on equal footing as a non-disabled peer. We do this through providing accommodations as outlined in the student's 504 Plan or Individualized Education Program (IEP).

An accommodation is a change in the procedure for administering the assessment that reduces the effect of the disability to the maximum extent possible. For example, if the student's IEP indicates that the student has a fine motor deficit and cannot fill in bubbles and requires that a scribe be provided to assist with the answer sheet, then we would provide for the transfer of information from the test booklet to the answer sheet through a scribe. This allows us to measure what the student knows and does not negatively impact the student's score because the student cannot fill in the bubbles efficiently. Accommodations do not change the kind of achievement or ability being measured, but they do change how the achievement or ability is measured. The accommodation reduces any problems the student might face in accessing the test content and allows the student to demonstrate their knowledge and abilities with the material.

Accommodations are decided during the IEP or 504 Plan meeting by the IEP team (comprised of various educators, parents, specialists, and pertinent stakeholders). A physician's medical diagnosis, independent psychological evaluations, and reports from other specialists can be used by the IEP team to support the determination of a disability and whether accommodations are necessary. These reports, however, are not sufficient, in and of themselves, to determine if a student can receive accommodations. Rather, the student must have a current IEP or 504 Plan from a public school.

What you as a parent can do when applying for Selective Enrollment Elementary Schools:

1. When completing your child's application, check yes to items that indicate your child has an IEP/504 Plan. This indication will in no way negatively impact your application. OAE encourages all parents to apply early.
2. If your child attends a Chicago public school, charter school, or contract school, CPS will obtain his IEP or 504 Plan from the Student Information System. CPS can also access the IEPs/504 Plans of private/parochial school students who have had their IEP/504 Plans developed by the Chicago Public Schools.
3. It is important that your child's IEP or 504 Plan is current and lists the accommodations that are required for testing. If you are the parent of a young child, please ensure your IEP/504 team completes the section of the IEP that lists District/State Assessment Accommodations (located in Section 10 (c) of the IEP) and in Section 5(2) of the 504 Plan. Applicable accommodations listed in this section (District/State Assessment Accommodations Section 10 (c) – Testing Accommodations or 5. Accommodations and Modifications: Classroom/Testing for Section 504) are the accommodations that will be provided for selective enrollment testing. Below is a sample list of accommodations that you will want to discuss with your IEP/504 team to determine if these accommodations are needed to support your child during testing.

Extended Time: Some students may need to have time limits on some tests extended to reduce the effect of slow work rate on their test performance. Those who use magnifiers, those who have attention disorders, and those who need help with word identification or reading are examples.

Individual/Small Group Administration: Students may be tested in small groups or individually; there is no minimum group size requirement for test administration. Students who need extra breaks and those who might be distracted in a classroom-testing situation might benefit from being tested in this manner.

Large-Print Edition: Students with visual impairments may benefit from the use of a large-print version of the test.

Braille Edition: Students who use Braille materials regularly with their classroom instruction may benefit from testing with the Braille version of the tests.

Communication Assistance: A test administrator who is fluent in the signing or cueing methods used by the student may need to repeat directions or certain portions of a test administration to clarify procedures for the student. Signs conveying answers to test questions should not be used, and no portion of the reading comprehension or vocabulary tests should be cued in any way.

Repeated Directions: Directions may be read aloud as many times as necessary to inform students of the proper procedures to follow in responding.

Test Read Aloud: Students with reading disabilities might need to have portions of tests or some complete tests read to them so that their reading skill does not interfere with measuring their achievement. For vocabulary and reading comprehension tests, reading the test aloud would potentially threaten the validity of the assessment and is not a permissible accommodation for these specific sections.

Answers Recorded/Scribe: An assistant or proctor may record the answers of a student on the answer sheet if the student is unable to do so as a result of the student's disability.

Transferred Answers/Scribe: Responses recorded in test booklets or those recorded by technologically assistive devices can be transferred to the student's answer sheet in preparation for scoring.

Other: Accommodations noted in Section 10(c) of student's IEP or Section 5(2) in a student's 504 Plan that are not included in the above list may also be used, as appropriate for the exam.

Eligibility Requirements at a Glance	
Applicants to grades 5-8 to Academic Centers, Classical Schools, the International Gifted Program, and Regional Gifted Centers	Students must score at or above the 50th percentile in one subject (reading or math) and at or above the 40th percentile in the other subject (reading or math) on the NWEA MAP.
Applicants to grades 5-8 to Regional Gifted Centers for English Learners	Final (cumulative) grades in reading and math no lower than a 'B' on the 2016-2017 report card.

TIPS FOR APPLYING TO ELEMENTARY SCHOOLS

GENERAL TIPS

- You are strongly encouraged to apply to schools online at go.cps.edu. You can:
 - Schedule your admissions exams
 - Receive email/text reminders and notifications
 - Receive notification about your child's offer(s)
 - Accept or decline your child's offer(s)All online!
- Consider ALL types of schools – not just magnet or selective enrollment schools, and not just the schools that you already know about.
- Apply to those schools where you would accept an offer if your child receives one. There is no advantage in applying to schools in which you have no interest.
- Do your homework to find out more about the schools in which you are interested **BEFORE** you submit your applications:
 - Review the schools' test scores. (These can be found at cps.edu.)
 - Attend Open Houses (check the Dates and Events section of the GoCPS website at go.cps.edu or call the schools directly for information).
 - Talk to parents who have children enrolled in the schools.
 - Take a tour of the neighborhoods.
- Because of the limited number of spaces available, **THERE IS NO GUARANTEE THAT YOUR CHILD WILL BE ACCEPTED TO ANY SCHOOL.** Most openings are at the entry-level grades (preschool, kindergarten or first grade).
- If you apply for a first grade age exception and your child is accepted to a school, you must provide the Office of Access and Enrollment by July 1, 2018, a letter from the principal/head administrator of your child's current non-public school (or public school outside Chicago) that affirms each of the following: that (1) your child has attended the same school for preschool and kindergarten, (2) your child's kindergarten teacher is appropriately certified, and (3) your child has been assessed as ready to work at the first grade level. If this signed letter is not provided by this deadline, any seat awarded through the Options for Knowledge application process will be forfeited. Note that day care centers do not qualify for this process.

APPLICATION TIPS

- Whether you are applying with a paper application or applying online, do not wait until the last day to apply. **Late applications will not be processed. Applications must be RECEIVED by the December 22nd deadline -- NOT postmarked.**
- **Do NOT submit paper Standard Elementary School Applications or Selective Enrollment Elementary Schools Applications to any of the schools to which you are applying.** These applications are to be submitted to the Office of Access and Enrollment. Processing cannot be guaranteed for applications that are not submitted directly to the Office of Access and Enrollment.
- Be sure to put your child's CPS ID number on the application if your child currently attends a Chicago public school, charter school, or contract school. This number can be found on a school report card or the Parent Portal (parent.cps.k12.il.us/pc/default.aspx), or obtained by calling your child's school. If you do not include

high school application

Please complete the High School Application to apply to following types of schools:

- **district high schools**
- **charter high schools**
- **contract high schools**

high school

application process

OVERVIEW

GoCPS is the new platform that manages the research, application, assessment, notification, and acceptance process for all Chicago Public Schools district and charter high schools, as well as all district elementary schools, and the four magnet preschools.

Students will now apply to ninth grade using one application. Students can apply to both Selective Enrollment programs and Non-Selective Enrollment programs on the single application. (Selective Enrollment programs are the 11 Selective Enrollment High Schools: Brooks, Hancock, Jones, King, Lane, Lindblom, Northside, Payton, Westinghouse, and Whitney Young. All other schools fall into the Non-Selective Enrollment category.)

The application process for high schools is a single-offer model. Students will receive an offer from the highest-ranked school/program on their application for which they qualify and for which there are available seats. Selective Enrollment and Non-Selective Enrollment schools are considered in separate selection process. Accordingly, a student can, at most, receive one Selective Enrollment offer (as in previous years) and one Non-Selective Enrollment offer.

Your child's application results will be released in March 2018. This will notify you whether or not your child received an offer from any of the programs to which you applied. If you apply ONLINE, your results will be posted to your online account. If you apply via PAPER application, your notification letter will be mailed to your home address.

METHODS OF APPLYING

Parents can apply using the online application site or via paper application. The online application site is highly recommended. Via the online site, parents will be able to view program eligibility; submit their application and schedule any necessary admissions screenings (e.g, admissions exams, auditions, etc.); receive notifications and updates via email or text; receive their child's offer(s); and accept an offer.

For parents who prefer to use the paper application process, the paper application is accessible on the GoCPS website. Information is also accessible on GoCPS regarding the minimum eligibility requirements for schools/programs, and the process for scheduling admissions exams, auditions, information sessions, and interviews. (In most cases, paper applicants will have to conduct the respective schools in order to schedule admissions screenings. For the Selective Enrollment admissions exam, the Office of Access and Enrollment will schedule the test and notify the parent of the date, time and location via U.S. mail.)

NWEA MAP

In order to apply to ninth grade for programs with academic eligibility requirements, students must have scores from the NWEA MAP administered by the Chicago Public Schools.

CPS students were administered the NWEA MAP in spring 2017. CPS students who did not take the spring 2017 NWEA MAP will be administered the test at their schools during the first available testing window.

NWEA MAP scores from other school systems cannot be accepted. If your child is a non-CPS student and is administered the NWEA MAP in September or October, his/her NWEA MAP scores will be uploaded to the online application site approximately three weeks after the student takes the test. Parents will be notified by robocall and email once the scores are accessible. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. Note that if you register after October 2, 2017, you will have to submit a paper application for the programs in which you are interested.

HOW TO APPLY

Online Application

Step 1: Go to GoCPS. Click 'Apply' at the top of the home page. This will allow you to open an account, with an email address or telephone number as your user name, and create your password.

CPS students will need an Activation Code to open an online account. (If you have misplaced your code, call the Office of Access and Enrollment at 773-553-2060 from a telephone number on your child's CPS Student Information file.)

Non-CPS students do not need an Activation Code to open an online account.

Step 2: Follow the instructions to enter your information and add your child(ren) to your account. Note that you can enter more than one parent/guardian to the account. However – and this is very important – the account must be opened with the name and address of the parent/guardian with whom the student resides. The address for this parent/guardian will be the address that is used for determining tiers, proximity boundaries, and attendance boundaries. If you would like for other parents/guardians to receive communications regarding the account, you can add their contact information later in the account creation process.

Step 3: If your child attends a non-CPS school, and attended a non-CPS school in the 2016-2017 school year, and your child plans to apply to schools/programs with academic criteria, your child will need to take the NWEA MAP that is administered by the Chicago Public Schools. The NWEA MAP is the standardized exam that is used by the Chicago Public Schools to determine eligibility for students to apply to schools with academic criteria. If you have not already done so, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. Note that if you register after October 2, 2017, you will have to submit a paper application for the programs in which you are interested.

Step 4: Once a CPS family creates the online account, they will see a list of all the high school programs to which the student is eligible to apply. Non-CPS families will see this information after their student's NWEA MAP scores have been uploaded to the online application site, which will occur approximately three weeks after the student takes the NWEA MAP.

Programs are displayed by eligibility, in alphabetical order, grouped according to the school name. The programs to which the student is eligible to apply will have a white background and those to which they are not eligible to apply will have a gray background. You will also see a column labeled Eligible to Apply, with programs identified with Yes or No. In the application, students will select the individual programs to which they are applying, rather than applying to the school in general, in most cases.

Step 5: You can apply to up to 20 Non-Selective Enrollment programs and, if eligible, up to six Selective Enrollment programs. (Please note that all Selective Enrollment programs have minimum eligibility requirements and some Non-Selective Enrollment programs have minimum eligibility requirements as well.) A counter will keep track of how many programs from each category have been selected.

Step 6: You will then rank the schools/programs selected in order of your preference, provide any supplemental information requested (e.g., essays or letters of recommendation), and schedule and participate in any required admissions screenings (e.g., testing, information sessions, auditions, etc.).

Step 7: After you have submitted your application, you will receive an email confirmation.

Paper Application

Step 1: Go to GoCPS and click 'How to Apply' and 'High Schools.' Scroll down to download and print the High School application. If you do not have printer access, contact the Office of Access and Enrollment at 773-553-2060.

Step 2: Review the list of Eligibility Requirements on pages 68-133 of this guide to see if you plan to apply to any programs with minimum requirements. With a copy of your child's NWEA MAP scores, final grades from 7th grade, and attendance data from 7th grade, check to see if your child meets the minimum requirements of the programs of your choice, if applicable.

Step 3: Use the School Codes accompanying the application in order to indicate the schools of your choice and rank them in order of your preference. Be sure to enter your choices in the correct section: Non-Selective and Selective Enrollment. When your application is complete, be sure to sign it.

Step 4: Submit your completed application to the Office of Access and Enrollment. Paper applications can be mailed or hand-delivered only. Paper applications must be received by the Office of Access and Enrollment no later than 5 p.m. on Friday, December 22, 2017. (Note that this is a RECEIVED BY date, not a postmarked date.) If you mail your application, we strongly recommend that you (1) send your application via certified mail so that you will have a receipt, (2) enclose a self-addressed, stamped postcard or envelope, which will be mailed back to you as proof of receipt, and (3) mail your application in plenty of time to ensure that it is received by the Office of Access and Enrollment on or before the application deadline. If you do not have a receipt and your applications do not reach our office, your child will not be considered for any of the schools to which you applied. Applications received after the deadline date cannot be processed.

Step 5: Review the list of Admissions Screenings on page 134 to see if any of the programs to which you applied require students to participate in admissions testing, auditions, information sessions, or interviews, or require essays or letters of recommendation.

If you are applying to one or more Selective Enrollment High Schools, your child will have to take the Selective Enrollment admissions exam. Your child's exam will be scheduled by the Office of Access and Enrollment after your paper application is received. Information regarding the date, time and location of your child's exam will be sent to your home address via U.S. mail approximately two weeks before the exam.

If you are applying to one or more Military Academies (Service Learning Academies), your child will have to attend an Information Session at one of the schools. Review the list of Military Academy Information Sessions on page 138. Your child can attend the Information Session at any Military Academy, even if you did not apply to it. You do not have to schedule an appointment in order for your child to attend an Information Session.

If you are applying to one or more International Baccalaureate (IB) programs, your child will have to attend an IB Information Session at one of the schools. Review the list of IB Information Sessions on pages 135-136 and directly contact the school (see page 137) whose session you want to attend. You can schedule your child's appointment at any IB school with available session space, even if you did not apply to it.

If you are applying to programs that require auditions or interviews, contact the school directly to schedule your appointment for the admissions screening.

If you are applying to programs that require an essay or letters of recommendation, contact the school(s) directly for information on how to submit your documentation.

MATCHING

Selection Process

Students will be considered for Selective Enrollment schools and Non-Selective Enrollment programs separately. If the student applies to both Selective Enrollment schools and Non-Selective Enrollment programs, he/she will be included in two separate selection processes.

The selection process takes into consideration the specific selection procedures for the programs (such as a lottery or a point system); the student's performance on any required tests, auditions, or interviews; points given to essays or teacher recommendations; and any other information that the school/program may consider, such as how close the student lives to the school, whether the student has a sibling currently enrolled in the school, or whether the student's parent is a staff member at the school.

Each student is considered for the schools/programs on his/her application, in the order of their preference. The student is given an offer from the highest-ranked school/program on his/her application for which he/she qualifies, based on seat availability, his/her status for the specific program's selection process (e.g., lottery number, final points), and the status of other applicants to those schools/programs.

Offers

If the student applies to both Selective Enrollment AND Non-Selective Enrollment programs, at most, he/she can receive two offers: one Selective Enrollment offer and one Non-Selective Enrollment offer.

If the student applies to programs in both categories and he/she does not qualify for a Selective Enrollment offer, or if the student only applies to Non-Selective Enrollment programs, the student may only receive a Non-Selective Enrollment offer.

If the student doesn't qualify for either a Selective Enrollment OR a Non-Selective Enrollment offer, the student is guaranteed a seat in the general education program at his/her neighborhood Chicago public high school.

Waitlists

For Non-Selective programs, students can be waitlisted for any program that is ranked higher than the program from which they received an offer, and for which they are eligible. (Selective Enrollment programs do not have waitlists.) Students will remain on waitlists whether or not they accept a first round offer.

At the end of the first and second rounds, principals will contact students on their waitlists to fill any remaining available seats, starting with the first student on the list and working in numerical order. Available seats will be offered to waitlisted students beginning with the first student on the waitlist. If a student accepts a first round offer, and later receives an offer from a school/program for which he/she was waitlisted, the student can accept the offer from the school/program where he/she was waitlisted and decline the initial offer.

SECOND ROUND

If the student is not satisfied with his/her first round offer, or if the student did not receive a first round offer, the student can submit an application for the second round. The second round only consists of programs that still have seats available.

The student does NOT have to decline a first round offer in order to apply in the second round. HOWEVER, if he/she submits a second-round application and receives a second-round offer, the student's first-round offer will automatically be forfeited. Because of this, families are advised to apply in the second round only if the student would like to attend a potential second round school/program more than the first-round offer he/she received.

Second-round offers will be released in May.

TRANSFERS

Students can transfer high schools between July 1 and the 20th day of each school year, or during fixed transfer windows at the end of each quarter.

A list of schools with available seats will be accessible on GoCPS. In order to be considered for a transfer, students will need to contact the school(s) in which they are interested, and follow the admissions requirements for those schools.

high school

the process: at a glance

You can apply online or by using a paper application. Instructions for both options are below.

Online Application	Paper Application
<ul style="list-style-type: none"> • Go to go.cps.edu. • If you have already created your account, click 'Sign In' and login with your username and password. If you have not yet created your account, click 'Apply.' Create a user name and password, and follow the instructions to enter the information for the primary parent/guardian and any students for which you are applying. If you are applying for a CPS eighth grader, you will need to enter the student's Activation Code, which was distributed at their school. (If the code has been misplaced or was not received, contact the Office of Access and Enrollment.) Non-CPS students do not need an activation code to open an account. • Your child will need NWEA MAP scores in order to be considered for schools with minimum NWEA MAP eligibility requirements. CPS students are administered the NWEA MAP at their school. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. Note that if you register after October 2, 2017, you will have to submit a paper application for the programs in which you are interested. • Once you have added your student(s), you will see a list of all the programs to which your child is able to apply. This list may include both Non-Selective and Selective Enrollment Programs. (Non-CPS students will see this information approximately three weeks after they take the September or October NWEA MAP.) • Select the programs of your choice, and then rank them in the order of your preference. You can apply to up to 20 Non-Selective Enrollment programs and up to six Selective Enrollment programs, if your child is eligible. A counter will keep track of the number of programs to which you apply. Submit your application when complete. • If you are applying to programs with admissions screenings, you will be prompted to schedule your appointments for these screenings after you apply. • Follow the instructions to schedule your child to test for the programs to which you applied. • You will receive an email confirmation when your application has been successfully submitted. 	<ul style="list-style-type: none"> • Go to go.cps.edu. • Click 'How to Apply' and 'High Schools' to access the paper application. • Your child will need NWEA MAP scores in order to be considered for schools with minimum NWEA MAP eligibility requirements. CPS students are administered the NWEA MAP at their school. If your child attends a non-CPS school and has not yet registered for the NWEA MAP, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on how to register by December 22, 2017. • Using the school codes accompanying the application, indicate the schools of your choice and rank them in order of your preference. Be sure to enter your choices in the correct sections: Non-Selective and Selective Enrollment, if applicable. • Sign your completed application and mail or hand-deliver it to the Office of Access and Enrollment. Applications must be RECEIVED by December 22, 2017. • If you mail your application, we strongly recommend that you (1) send your application via certified mail, so that you have a receipt, (2) include a self-addressed, stamped postcard/envelope, which will be mailed back to you once your application is received, and (3) mail your application in plenty of time to ensure that it is received by the Office of Access and Enrollment on or before the application deadline. If you do not receive your postcard/envelope within two weeks, contact the Office of Access and Enrollment at (773) 553-2060 or gocps@cps.edu. • Schedule your child for any required admissions screenings.

high school

frequently asked questions

General Questions

What is GoCPS?

GoCPS is the platform that manages the research, application, assessment, and notification process for all district and charter high schools, all district elementary schools, and the four magnet preschools. For applicants to ninth grade, you can use GoCPS to research and favorite all of your school and program options, schedule appointments for admissions screenings, submit your application and receive and accept your offer.

Why did the high school application process change?

The previous application process was only partially centralized. Families could submit applications for up to five programs to a central location, but all other schools and programs were managed by separate, individual application processes. As a result, students could submit numerous applications to a variety of programs, each with different application deadlines and notification timelines. In addition, through this system, some students received multiple offers, while others might not receive an offer until the summer, or even the next school year, which limited many students from accessing options that could best meet their needs, skills, and interests.

Do I have to live in Chicago to attend a high school in Chicago?

Yes, you have to live in Chicago to enroll and attend a Chicago public, charter, or contract school. You do NOT have to live in Chicago in order to apply, participate in the application process, and even be selected, but you will have to provide proof of city of Chicago residency by July 1, 2018, for the 2018-2019 school year.

Does my child have to do anything in addition to submit an application in order to be considered for high school?

A number of schools and programs require admissions screenings. These are events in which students must participate in order to be considered for the schools/programs.

See the complete list of Admissions Screenings on page in order to determine whether any of these events are required for the schools/programs in which your child is interested.

Do students have to take a pre-qualifying exam in order to apply to high schools?

Many high school programs have minimum eligibility requirements in order for students to apply. In most cases, eligibility is based on scores from the NWEA MAP, which is a standardized achievement skills test. In order to be considered for programs with eligibility requirements, students must take the NWEA MAP. CPS district and charter students are administered the NWEA MAP at school. Non-CPS students must register for the NWEA MAP in order to be administered the NWEA MAP by CPS. NWEA MAP scores from outside of the Chicago Public Schools cannot be accepted. (Contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu for information on registering for the test before the December 22nd deadline.)

Which NWEA MAP scores are used for the 2018-2019 application process?

For CPS students applying to grades 5-9 for the 2018-2019 school year to schools/programs with academic criteria, we use the NWEA MAP scores from spring 2017. If the CPS student did not take the spring 2017 NWEA MAP, he/she will be tested during the first possible testing window at his/her school in the 2017-2018 school year, and these are the scores that will be used for the application process. For non-CPS students applying to grades 5-9 for the 2018-2019 school year to schools/programs with academic criteria, we use the scores from the NWEA MAP administered by CPS in September or October 2017, or January 2018 if the student misses the registration date for the September or October exam.

What does primary address mean?

When you fill out your child's application -- whether online or paper -- you must indicate your child's primary address. The primary address is defined as your child's regular, fixed nighttime abode. Note that you must use the address that is your primary address at the time that you apply. You cannot apply using an address where you plan to live after the application deadline.

I share joint custody with my child's mother/father. Whose address should I use?

If you share joint custody and your child sleeps at night at only one residence the majority of the time, that is the child's primary address, and that is the address that must be entered on the application. In cases of joint custody where a child's residence is equally divided between two addresses, either address may be used. Note that the address of only ONE parent can be used; your child cannot be considered for schools/programs by using more than one address, and your child cannot submit applications with different addresses. The address that is used for the application and selection process must be the same, single address.

Is transportation provided?

Transportation is not provided unless the student has an IEP or 504 Plan which specifies that the student is eligible for transportation.

What is Principal Discretion?

Principal Discretion is a process that allows principals of Selective Enrollment High Schools to fill a designated number of seats, outside of the regular selection process, and in strict compliance with the Principal Discretion guidelines. The Principal Discretion process takes place in March, following the first round of regular selection. Information about the process will be posted on this website in March. Principal Discretion only applies to the 11 Selective Enrollment High Schools.

My child is currently enrolled in high school. I would like for him to transfer to a different high school next year. What should I do?

Contact the high school in which you are interested for information on transfer opportunities and guidelines. Each school establishes its own guidelines and requirements for transfer students.

Application Questions

How do I apply to high schools?

You can apply via the online application site or you can submit a paper application. You can access both at go.cps.edu. You can apply to up to 20 Non-Selective Enrollment programs and up to 6 Selective Enrollment programs. You will rank your school/program choices in the order of your preference.

If you apply using the online application site, you will schedule appointments for any admissions screenings that may be required for the schools/programs to which you want to apply. If you apply to a school/program and your child does not participate in the required admissions screening, he/she will not be considered in the selection process for that school/program.

Your application must be received no later than December 22, 2017. If you apply online, your application must be submitted by 11:59 p.m. on that date. If you mail or hand-deliver a paper application, your application must be received no later than 5 p.m. on December 22, 2017, by the Office of Access and Enrollment, 42 W. Madison St., Garden Level, Chicago, Illinois 60602.

Do I have to apply for the maximum number of schools?

No. You are not required to apply to the maximum allowed number of schools. You should only apply to schools/programs where you would accept an offer if your child receives one. If a school is too far from your home address, or if there is any other reason why you would not want your child to attend a school/program, you should not include that school/program on your application. However, you should carefully research the available programs and apply to as many programs as you would accept an offer from. The more programs you apply to, the better your chances of receiving an offer.

If I submit an online application, how can I be sure that it was received?

You will receive an email confirmation.

If I mail a paper application, how can I be sure that it was received?

If you mail your application, we strongly recommend that you:

1. Send the application via certified mail so that you will have a receipt;
2. Include a self-addressed, stamped envelope or postcard, which will be mailed back to you as a receipt once your application is received; and

3. Mail your application in plenty of time to ensure that it is received by the Office of Access and Enrollment on or before the application deadline.

If you do not have a receipt and your application does not reach our office, your child will not be considered for any of the schools to which you applied. Applications received after the application deadline cannot be processed.

I want to apply to more schools/programs. Can I submit a second application?

No. You can only submit one application.

What should I do if I move after I submit my application?

If you apply online, you can make updates via the online application site to your address and telephone number. If you apply via paper application, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a paper Contact Information Modification Form. For the purposes of determining tiers, attendance/overlay boundaries, and proximity boundaries, address changes must be submitted no later than December 22, 2017. NOTE: If you change your address and you accept an offer from a school, you will be required to provide proof of both the address on the application, and the new address, at the time of your child's registration.

How can I correct other information on my application?

To correct your child's CPS ID number, IEP/504 Plan status, current grade, or other student-related information, you will need to submit a paper Student Information Modification Form, whether you apply online or via paper application. To request the Student Information Modification Form, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu. Corrections must be submitted no later than December 22, 2017.

How can I change my school choices?

We encourage you to attend Open Houses and conduct any other school-related research BEFORE submitting your application, to decrease the need for changing school choices. If you apply online, you can make changes by deleting your application and submitting a new one. If you apply via paper application, contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu to request a paper Application Modification Form. Changes must be submitted no later than December 22, 2017.

If I want to attend my neighborhood school, do I have to apply?

You are not required to submit an application if you want to enroll in the general education program at your neighborhood school. However, we encourage you to do so, so that the school will have an indication of the attendance area students who plan to attend. Please note that your attendance area school may also have other programs in which you might be interested, and for which you may be required to apply in order to be considered.

I am employed at a CPS school and would like my child to attend my school. Does my child have preference in the selection process?

For non-selective enrollment elementary schools and all district high schools that select students through a computerized lottery, two seats will be allocated at the entry level grade for children of teachers or staff members currently employed at that school. If there are more than two children who qualify and apply for these seats, a lottery will be held and seats will be filled by computerized lottery. For the purposes of this policy, the term children means natural children, stepchildren, foster children and adopted children, as evidenced by documentation required by the CEO or designee. If there are minimum criteria for a school, the student must meet eligibility requirements in order to qualify.

IEP/504 and EL Students

Can students with disabilities apply to Selective Enrollment High Schools? Can English Learners?

Yes. Please view the complete list of Eligibility Requirements on pages 68-133.

Admissions Screenings Questions

General

What are admissions screenings?

Admissions Screenings are events required by some schools/programs in order for students to be considered in the selection process. These consist of admissions exams, auditions, information sessions, and interviews.

How do I know which schools/programs require admissions screenings?

See the complete list of Admissions Screenings on page 134 in order to determine whether they are required for the schools/programs in which your child is interested.

How do I schedule my child for admissions screenings?

If you apply using the online application site, you can schedule your child's appointments online.

If you apply to Selective Enrollment High Schools using the paper application, the Office of Access and Enrollment will schedule your child's admissions exam and notify you via U.S. mail of the date, time and location. For most other programs with required admissions screenings, you will contact the school to schedule your child's appointment.

Fine and Performing Arts Auditions/Portfolio Reviews

Which schools/programs require an audition or portfolio review?

Auditions and/or Portfolio Reviews are required by the fine and performing arts programs at the following: ChiArts, Curie, Lincoln Park, and Senn.

How do I schedule an appointment for an audition or portfolio review?

If you apply using the online application site, you can schedule your child's appointment for the audition or portfolio review.

If you apply using the paper application, contact the school to schedule your child's appointment.

International Baccalaureate Information Sessions

Does my child have to attend an Information Session for each International Baccalaureate school to which he/she applies?

No. Your child will only need to attend ONE Information Session. In addition, your child can attend an Information Session at any IB High School, even if you do not plan to apply to it.

How do I schedule an appointment for an IB Information Session?

If you apply online, you can schedule your child's appointment using the online application site. If you apply to IB schools/programs using a paper application, you will need to schedule your child's appointment by directly contacting the school whose Information Session you want your child to attend. See pages 135-137 for the list of Information Sessions and contact information.

What will happen at the Information Session?

Students will receive details regarding the IB Program, including the IB philosophy, curriculum, and benefits of the program.

Do parents have to attend the Information Session?

Parents are welcome to attend, but their attendance is not mandatory.

Military Academy Information Sessions

Does my child have to attend an Information Session for each Military Academy to which he/she applies?

No. Your child will only need to attend ONE Information Session. In addition, your child can attend an Information Session at any Military Academy, even if you do not plan to apply to it.

What will happen at the Information Session?

At the Information Session, students will sign a Commitment Agreement, complete a Motivation and Perseverance Assessment, and write a brief essay.

How do I schedule an appointment for a Military Academy Information Session?

If you apply online, you can schedule your child's appointment using the online application site. If you apply using a paper application, your child can review the list of available Information Sessions on page 138 and attend the session of his/her choice.

Selective Enrollment Admissions Exams

What is required in order for my child to be eligible to take the Selective Enrollment High Schools admissions exam?

Please see the list of Eligibility Requirements on pages 68-133.

What is on the Selective Enrollment High Schools admissions exam?

The Selective Enrollment High Schools exam consists of two segments: achievement skills and critical thinking skills. Only the results from the achievement skills test in the four subject areas (reading comprehension, vocabulary, grammar, and math word problems) will generate percentiles and point values applicable for the 2018-2019 school year selections.

How many Selective Enrollment tests will my child have to take?

Your child will take only one Selective Enrollment High Schools exam, regardless of the number of schools to which he/she applies.

How long is the test?

The test is approximately four hours long.

When are the test dates?

The Selective Enrollment High Schools exam will be administered on the following dates:

November 18, 2017

December 9, 2017

December 16, 2017

January 27, 2018

February 3, 2018

The test will be administered at five sites: Lane Tech, Lindblom, King, Westinghouse, and Whitney Young.

Do you provide sample questions or study materials for the Selective Enrollment High Schools exam?

The Chicago Public Schools does NOT recommend, endorse, or provide study guides, test preparation courses, or sample tests/questions for the Selective Enrollment High Schools admissions exam. The Selective Enrollment High Schools admissions exam is designed to assess student ability, knowledge, and potential for success in programs for academically advanced students.

My child attends a non-CPS school and is not applying for a school with academic criteria for the 2018-2019 school year, but I would like to have her take the NWEA this year so she can become familiar with the test. Can I do this?

No. The Chicago Public Schools does not have the financial or personnel resources, or the physical capacity, to test students who are not planning to apply for the upcoming school year.

Other Schools/Programs

How can I learn about the admissions screenings required for other schools and programs?

See the complete list of Admissions Screenings on page 134 in order to determine whether any of these events are required for the schools/programs in which your child is interested.

Selection Questions

How does the selection process work?

If you apply to both Non-Selective Enrollment programs and Selective Enrollment programs on your application, your child will be included in two separate selection processes. Your child will be considered for the schools/programs to which you apply, based on the order in which you rank the schools/programs.

Non-Selective Enrollment Programs: The selections for the Non-Selective Enrollment schools/programs are based on the specific selection criteria and methodology for those schools. Some schools/programs select students through a computerized lottery, some base selections on a point system, etc. The selection criteria/methodology for each school on your child's application will be used to determine your child's status for that school/program. Your child will be considered for the schools/programs on his/her application, in the order of your preference. Your child will then receive an offer from the highest-ranked school/program on his/her application for which he/she qualifies, based on seat availability, his/her status for the specific program's selection process (such as lottery number or final points), and the status of other students who applied to those schools/programs.

If your child does not qualify for any of the schools/programs to which you apply, he/she will receive an offer from the neighborhood school for your home address.

Selective Enrollment Programs: The selections for Selective Enrollment schools are based on a 900-point scale, comprised of NWEA MAP scores (300 points), seventh grade final grades (300 points), and the student's performance on the Selective Enrollment admissions exam. Applicants are ranked in order of their final point score, from highest to lowest. The selection process starts with the top-scoring student and proceeds down the list. Your child will be considered for the schools on his/her application in the order in which they are listed. If your child scores high enough to receive an offer, it will be from the highest-ranked school on his/her application for which he/she qualifies.

If your child does not qualify for any of the Selective Enrollment schools to which you apply, he/she will not receive any Selective Enrollment offers.

If I apply to a school where I have another child enrolled, will my child automatically be admitted?

Many schools and programs give preference to students who have a sibling who is currently enrolled and who will be enrolled in the school/program in the coming school year. Note that Selective Enrollment schools, International Baccalaureate High Schools, and other programs with academic criteria do not consider siblings as part of the selection process.

If I am employed at a CPS district high school, will my child automatically be admitted?

For Non-Selective Enrollment district elementary schools and all district high schools/programs that select students through a computerized lottery, two seats will be allocated at the entry level grade for children of teachers or staff members currently employed at that school. If there are more than two children who qualify and apply for these seats, a lottery will be held and seats will be filled by computerized lottery. For the purposes of this policy, the term children means natural children, stepchildren, foster children and adopted children, as evidenced by documentation required by the CEO or designee. If there are minimum criteria for a school, the student must meet eligibility requirements in order to qualify.

If I only receive one offer, will my child be waitlisted at any of the other schools on his/her application?

Your child will be waitlisted for any Non-Selective Enrollment schools/programs that are ranked higher than the school from which he/she receives an offer. For example, if your child applies to 10 schools/programs and receives an offer from his/her fifth-ranked choice, he/she will be waitlisted for the schools/programs ranked 1-4, and he/she will not be selected for the schools/programs ranked 6-10. Whether or not you accept the offer your child receives, he/she will remain on these waitlists. If you accept the offer and later receive an offer from a school/program where your child was waitlisted, you can accept that offer and decline the offer you previously accepted. There is no guarantee, however, that your child will receive an offer from a school/program where he/she has been waitlisted.

Notification Questions

When will I find out if my child has received an offer?

Offer notifications will be released in March 2018.

How will I be notified of my child's offer?

If you apply ONLINE, your child's offer(s) will be accessible via your account on the online application site. If you apply via PAPER application, your child's offer(s) will be mailed to your home in March 2018. You will receive only ONE letter.

Second Round/Transfer Questions

What can I do if I am not satisfied with the offer my child receives?

If you are not satisfied with the offer your child receives, you can apply in the second round for schools/programs that still have seats available. You can also apply in the second round if you did not receive any offers from the schools/programs to which you applied, or if you did not participate in the first round process. Second round notifications will be released in May 2018. You do not have to decline a first round offer in order to apply for the second round. However, it is IMPORTANT to note that if you submit an application for the second round and your child receives an offer, you will automatically forfeit the first round offer.

If I decide after the second round that I want to transfer to a different school, what should I do?

If the student decides during the summer that he/she would like to attend a different school, the student can participate in the transfer process to a school with seats available, during the transfer window (July 1st to the 20th day of school).

TIPS FOR APPLYING TO HIGH SCHOOLS

-
- You are strongly encouraged to apply to schools online at go.cps.edu. You can:
 - Schedule your admissions exams
 - Receive email/text reminders and notifications
 - Receive notification about your child's offer(s)
 - Accept or decline your child's offer(s)All online!
 - Consider as many schools as possible in which you are interested – don't limit your choices to just a few well-known schools/programs. Use the Search function at go.cps.edu to gather information about the variety of offerings available.
 - Don't apply to programs that you don't want to attend. If a school is too far from your home, or there are other reasons why you would not accept an offer if you receive it, do not include it on your application.
 - You do not have to apply to the maximum allowed number of programs. However, you should apply to as many programs as you would accept an offer from. The more programs you apply to, the more likely it is that you will receive an offer.
 - Be sure to rank your schools in your **true order of preference**: rank the school you want to attend the most as #1, your second choice as #2, and so on. This is the order in which you'll be considered.
 - Eligible students can still apply for Principal Discretion for the Selective Enrollment High Schools. This process has not changed.
 - You are guaranteed a seat in the general education program at your neighborhood district high school should you choose to attend. You do not have to include it on your application. However, if you know you want to attend your neighborhood school, we encourage you to participate in the process and apply to this program so that the school will have an indication of which students intend to enroll.
 - Do NOT submit the paper high school application to any of the schools to which you are applying. The application is to be submitted to the Office of Access and Enrollment. Processing cannot be guaranteed for applications that are not submitted directly to the Office of Access and Enrollment.
 - If you are submitting a paper application, be sure to put your child's CPS ID number on the application if your child currently attends a Chicago public school, charter school, or contract school. This number can be found on a school report card or the Parent Portal (parent.cps.k12.il.us/pc/default.aspx), or obtained by calling your child's school. If you do not include this number, it will have to be entered manually, which will delay the processing of your child's application, as well as the scheduling of test dates, if applicable.

Remember: The application deadline is December 22, 2017.
Online applications must be submitted by 11:59 p.m. on this date.
Paper applications, whether mailed or hand-delivered, must be received by the
Office of Access and Enrollment by 5 p.m. on this date.

If you have any questions, contact the Office of Access and Enrollment at
(773) 553-2060 or
gocps@cps.edu.

Eligibility Requirements and Selection Processes

Some high school programs have minimum eligibility requirements in order for students to apply. Eligibility can be based on one or more factors, including NWEA MAP scores, final grade point average (GPA) from seventh grade, and attendance percentage from seventh grade. In addition, some programs may have different requirements based on whether students reside inside the school's attendance boundary, or whether the student has an IEP or receives bilingual services. A complete list of the Eligibility Requirements, along with the Selection Processes, for all high school programs, can be accessed below.

School and Program	Program Eligibility Requirements	Program Selection Process
ACERO - GARCIA HS - STEM	None	Students are randomly selected by computerized lottery. The lottery is conducted in the following order: students currently enrolled in eighth grade at an Acero Elementary Charter School, sibling, general.
ACERO - DE LA CRUZ HS - Fine and Performing Arts	None	Students currently enrolled in the school's eighth grade will have a deadline to submit their intent to enroll in ninth grade if they wish to remain at the school. Applicants who are not currently enrolled in the school are randomly selected by computerized lottery. The lottery is conducted in the following order: students currently enrolled in eighth grade at an Acero Elementary Charter School, sibling, general.
ACERO - SOTO HS - General Education	None	Students are randomly selected by computerized lottery. The lottery is conducted in the following order: students currently enrolled in eighth grade at an Acero Elementary Charter School, sibling, general.
ACE TECH HS - STEM	None	Students are randomly selected by computerized lottery.
AIR FORCE HS - Service Learning (Military)	All applicants: Minimum combined percentile of 48 in reading and math on NWEA MAP. Attendance at an Information Session is required for eligible applicants.	Eligible students must attend an Information Session, during which they will sign a Commitment Agreement, complete a Motivation and Perseverance Assessment and write a brief essay. Selections will be based on a point system with a maximum of 500 points, derived from 7th grade final (cumulative) grades (100 points), 7th grade NWEA MAP scores (150 points), the two-part assessment (50 for each part), and the essay (100 points).
ALCOTT HS - General Education	None	Students are randomly selected by computerized lottery. The lottery is conducted in the following order: Alcott Elementary School students, proximity, general.
ALCOTT HS - Pre-Engineering	None	Students are selected on a point system. Points are based on 7th grade final GPA and NWEA MAP scores. The school determines the minimum cutoff score for selections.

School and Program	Program Eligibility Requirements	Program Selection Process
AMUNDSEN HS - Game Programming & Web Design	None	<p>Students are randomly selected by computerized lottery.</p> <p>General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
AMUNDSEN HS - General Education (Grow Community)	None	<p>Students who live within the school's attendance boundary or who attend Grow Community Schools can be admitted automatically. This program only accepts students who live within the school's attendance boundary or attend a Grow Community School.</p>
AMUNDSEN HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	<p>Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections. Preference is given to students who meet the minimum eligibility requirements, attend an Information Session, and are enrolled in the school's Middle Years Programme partner, McPherson Elementary School.</p>
ASPIRA - BUSINESS & FINANCE HS - General Education	None	<p>Students are randomly selected by computerized lottery. The lottery is conducted in the following order: students who are currently enrolled in Aspira Haugan Middle School; sibling; general.</p>
ASPIRA - EARLY COLLEGE HS - General Education	None	<p>Students are randomly selected by computerized lottery. The lottery is conducted in the following order: students who are currently enrolled in Aspira Haugan Middle School; sibling; general.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
AUSTIN CCA HS - General Education	None	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Students who live outside of the school's attendance boundary are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, general.</p>
AUSTIN CCA HS - Manufacturing	None	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
AUSTIN CCA HS - Pre-Engineering	None	<p>Students are selected on a point system. Points are based on 7th grade final GPA and NWEA MAP scores. The school determines the minimum cutoff score for selections. Preference is given to students who live within the school's attendance boundary.</p>
BACK OF THE YARDS HS - Dual Language	<p>General Education and 504 Plan students: Minimum percentile of 40 in both reading and math on NWEA MAP, minimum 3.0 GPA in 7th grade, LAS Links Assessment composite of 4 or STAMP Assessment at the Intermediate Level.</p> <p>IEP and EL students: Minimum combined percentile of 80 in reading and math on NWEA MAP, minimum 3.0 GPA in 7th grade, LAS Links Assessment composite of 4 or STAMP Assessment at the Intermediate Level.</p> <p>Students without LAS Links and/or STAMP scores will be contacted by the Office of Language and Cultural Education to arrange for these assessments.</p>	<p>Eligible students are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, students currently enrolled in a CPS elementary school with a world language or dual language program, general.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
BACK OF THE YARDS HS - General Education	None. All interested students, including students who live within the overlay boundary of the school, must apply.	Students are randomly selected by computerized lottery. The lottery is conducted in the following order: students who live within the attendance boundaries of Chavez, Daley, Hamline, Hedges, Lara, or Seward Elementary Schools; general.
BACK OF THE YARDS HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections.
BOGAN HS - Accounting	None	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan Students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
BOGAN HS - Entrepreneurship	None	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
BOGAN HS - General Education	<p>Students who live within the school's attendance boundary have no eligibility requirements.</p> <p>All applicants who live outside of the school's attendance boundary: Minimum GPA of 2.5 in 7th grade and 7th grade minimum attendance percentage of 93.</p>	<p>Students who live within the school's attendance boundary have no eligibility requirements and can be admitted automatically.</p> <p>Eligible students who live outside of the school's attendance boundary are randomly selected by computerized lottery.</p>
BOGAN HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	<p>Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections.</p>
BOWEN HS - General Education	None	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Students who live outside of the school's attendance boundary are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, general.</p>
BOWEN HS - Manufacturing	None	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. The lottery is conducted in the following order: sibling, proximity, students enrolled in AUSL schools, general.</p>
SOLORIO HS - General Education	<p>None</p>	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Students who live outside of the school's attendance boundary are randomly selected by computerized lottery.</p>
SOUTH SHORE INTL HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	<p>Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
SOUTH SHORE INTL HS - Medical & Health Careers	None	Students are selected on a point system. Points are based on 7th grade final GPA and NWEA MAP scores. The school determines the minimum cutoff score for selections.
SOUTH SHORE INTL HS - Selective Enrollment High School	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP.</p> <p>Testing is required for all eligible applicants.</p>	Eligible students are selected on a point system with a maximum of 900 points. Students are assigned points for 7th grade final grades, NWEA MAP scores, and the admissions test, each worth a maximum of 300 points. The first 30% of the available seats are filled by the top scoring students based on rank score; the remaining seats are equally distributed among the four socio-economic tiers and filled by the top-scoring students in each tier.
SPRY HS - Three-Year, Year-Round High School	None	Students are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, general.
STEINMETZ HS - Digital Media	None	<p>Students are randomly selected by computerized lottery.</p> <p>General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
STEINMETZ HS - General Education	<p>Students who live within the school's attendance boundary have no eligibility requirements.</p> <p>Students who live outside of the school's attendance boundary:</p> <p>General Education and 504 Plan students: Minimum percentile of 45 in both reading and math on NWEA MAP, minimum GPA of 2.0 in 7th grade, and 7th grade minimum attendance percentage of 90.</p> <p>IEP and EL students: Minimum combined percentile of 90 in reading and math on NWEA MAP, minimum GPA of 2.0 in 7th grade, and 7th grade minimum percentage of 90.</p>	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Eligible students who live outside of the school's attendance boundary are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, general.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
STEINMETZ HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	<p>Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections.</p>
STEINMETZ HS - JROTC	<p>General Education and 504 Plan students: Minimum percentile of 45 in both reading and math on NWEA MAP and minimum 2.0 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 90 in reading and math on NWEA MAP, and minimum 2.0 GPA in 7th grade.</p>	<p>Eligible students are randomly selected by computerized lottery.</p>
SULLIVAN HS - Accounting	<p>None</p>	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
SULLIVAN HS - General Education	<p>None</p>	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Students who live outside of the school's attendance boundary are randomly selected by computerized lottery. The lottery is conducted in the following order: students attending Boone, Field, Gale, Hayt, Jordan, Kilmer, McCutcheon, McPherson, or West Ridge Elementary Schools; sibling; general.</p>

School and Program	Program Eligibility Requirements	Program Selection Process
SULLIVAN HS - Medical & Health Careers	None	Students are selected on a point system. Points are based on 7th grade final GPA and NWEA MAP scores. The school determines the minimum cutoff score for selections.
TAFT HS - General Education	None	<p>Students currently enrolled in the school's eighth grade will have a deadline to submit their intent to enroll in ninth grade if they wish to enroll in the school's general education program.</p> <p>Students enrolled in the Taft Academic Center or students who live within the school's attendance boundary can be admitted automatically.</p> <p>This program only accepts students who live within the school's attendance boundary or who attend the school's Academic Center.</p>
TAFT HS - International Baccalaureate (IB)	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP and minimum 2.5 GPA in 7th grade.</p> <p>Attendance at an Information Session is required for all eligible applicants.</p>	Eligible students are selected on a point system. Points are based on NWEA MAP scores and 7th grade GPA. Students who live within the school's attendance boundary will be given 50 additional points. The school determines the minimum cutoff score for selections. Preference is given to students who meet the minimum eligibility requirements, attend an Information Session, and are enrolled in the school's Academic Center.
TAFT HS - NJROTC	<p>General Education and 504 Plan students: Minimum percentile of 24 in both reading and math on NWEA MAP.</p> <p>IEP and EL students: Minimum combined percentile of 48 in reading and math on NWEA MAP.</p> <p>Eligible applicants must participate in an interview.</p>	Eligible students are selected on a point system. Points are based on the student's NWEA MAP scores and the interview.
TEAM HS - General Education	<p>General Education and 504 Plan students: Minimum combined percentile of 40 in both reading and math on NWEA MAP, minimum 2.0 GPA in 7th grade, and 7th grade minimum attendance percentage of 80. IEP and EL students: Minimum 2.0 GPA in 7th grade and 7th grade minimum attendance percentage of 80.</p>	Eligible students are randomly selected by computerized lottery. The lottery is conducted in the following order: students with a 7th grade final GPA of 2.5 or higher, general.

School and Program	Program Eligibility Requirements	Program Selection Process
TILDEN HS - Culinary Arts	None	<p>Students are randomly selected by computerized lottery. General Education and 504 Plan students: Preference is given to students with percentiles of 24 and above on the NWEA MAP in reading and math. A total of 30% of the seats will be made available to attendance area applicants.</p> <p>IEP and EL students: Preference is given to students with combined NWEA MAP scores that equal 48 or above.</p> <p>Note: Repeating 8th graders and students pushed into 8th grade from 6th grade due to age requirements qualify for selection but will be placed in a lower preference group.</p>
TILDEN HS - General Education	None	<p>Students who live within the school's attendance boundary can be admitted automatically.</p> <p>Students who live outside of the school's attendance boundary are randomly selected by computerized lottery.</p>
U OF C - WOODLAWN HS - General Education	None	<p>Students currently enrolled in the school's eighth grade will have a deadline to submit their intent to enroll in ninth grade if they wish to remain at the school.</p> <p>Students who are not currently enrolled in the school are randomly selected by computerized lottery. The lottery is conducted in the following order: sibling, general.</p>

Glossary

Advanced Placement

Advanced Placement (AP) is a curriculum in the United States and Canada sponsored by the College Board which offers standardized high school courses that are generally recognized to be equivalent to undergraduate courses in college. Participating colleges grant credit to students who obtained high enough scores on the exams to qualify. Students enrolled in AP courses engage in intense discussions, solve problems collaboratively, and learn to write clearly and persuasively. AP is a within-school program; students can take advantage of this program after they are enrolled in a school.

AVID (Advancement Via Individual Determination)

Through AVID, high school students receive tutoring, improve their self-image, develop critical thinking and organizational skills, and become leaders and role models for other students. In most cases, AVID is a within-school program; students can take advantage of this program after they are enrolled in a school.

Career Academies

Career Academies offer intensified resources that provide high school students with hands-on experiences and the opportunity to visit local businesses and shadow business professionals in various career areas.

Career and Technical Education (CTE) College and Career Academies and CTE Programs

CTE Programs feature a unique approach to prepare high school students for college and career success. Students can participate in CTE College and Career Academies, to which students must apply, and/or they can participate in within-school CTE programs. Through these programs, students experience hands-on training in their chosen industry, and may have the opportunity to earn college credit, attain industry-recognized certifications, and participate in job shadows and internships.

Charter Schools

Charter schools are independently operated schools that are authorized by CPS or the State Charter School Commission under Illinois Charter Schools Law. The schools authorized by CPS are funded and monitored by the Chicago Public Schools district, but can exercise autonomy over many student-related policies. Charter schools are governed by school-selected Boards of Directors and operate under contractual agreements with the authorizing entity; typically, these contracts are for five-year terms.

Chicago Builds

Chicago Builds is a two-year, citywide training program focused on careers in construction. Participating students receive hands-on training in the fields of carpentry, electricity, HVAC, welding, and general construction.

Children's Engineering

Provides the opportunity for elementary school students to work together in cooperative groups on engineering design challenges, projects and activities, requiring them to define problems, research, design, construct, test, analyze, and communicate solutions.

Contract Schools

Contract schools are district schools that are managed by external operators. These schools are funded and monitored by the district and must adhere to all student-related district policies. Contract schools are governed by school-selected Boards of Directors and operate under contractual agreements with the district; typically, these contracts are for five-year terms.

Dual Enrollment

Through Dual Enrollment, students take college courses while in high school, earning both high school and college credit. Participation in Dual Enrollment may ease students' transition from high school to college and save college costs, as course costs are covered by the students' high school. Dual Enrollment is a within-school program; students can take advantage of the program once they are enrolled in a school.

Dual Language/Dual Language Immersion

This program enables English-speaking students to learn and improve their English skills and receive Spanish instruction. Spanish-speaking students learn and improve their skills in Spanish and receive English instruction.

Early College STEM [Science, Technology, Engineering, Math] Schools (ECSS)

The ECSS connects high school, college, and the world of work through dynamic partnerships and a new vision for college and career readiness. Partnerships allow students to pursue a career in technology and gain skills for the 21st century workforce; students have the opportunity to graduate with industry certifications and up to two years of college credit. In addition, students benefit from workplace learning experiences through internships, and they are matched with professional mentors in their career path so that they gain valuable knowledge and experience.

Fine and Performing Arts

Fine and performing arts programs encourage students' creative and artistic expression, and develop their interest in art, music, dance, and/or drama. Faculty and students work with some of the city's premier arts institutions and artists, both in the schools and throughout the city.

General Education

Schools that fall in this category offer a curriculum of general education that includes a wide variety of subject areas, including the core subjects of English/language arts, mathematics, science, and social studies, and may also include world language, art, music, and physical education. The general education program does not specialize in one particular area of the curriculum.

Humanities

The Humanities curriculum includes literature, history, art, music, geography, and world language, and brings artists and speakers into the classroom.

International Baccalaureate (IB) High Schools

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

CPS currently offers the following IB programs:

1. **IB Primary Years Programme (PYP):**
The International Baccalaureate (IB) Primary Years Programme (PYP) is for students aged 3-12. This program prepares students to become active, caring, lifelong learners, and focuses on the development of the whole child as an inquirer, both within and beyond the classroom.
2. **IB Middle Years Programme (MYP):**
The International Baccalaureate Middle Years Programme provides a flexible curriculum framework suitable to meet the needs of all students. At the elementary school level, the MYP is offered to grades 6-8. At the high school level, the MYP is offered to grades 9 and 10. The MYP model places the learner at the center. This underscores IB's belief in educating the whole person, and the central importance of student inquiry.
3. **IB Diploma Programme (DP):**
The IB Diploma Programme is a comprehensive and challenging pre-university program for academically motivated students in grades 11 and 12. The Diploma Programme is widely recognized for its high academic standards and the impressive success of its graduates in colleges and universities around the world.
4. **IB Career-related Programme (IBCP):**
The IBCP is designed for students in grades 11 and 12. It incorporates the educational principles, vision, and learner profile for IB into a unique offering that specifically addresses the needs of students who wish to engage in career-related education. Students apply to be in the IBCP once they are enrolled in the school.

JROTC

The Junior Reserve Officers' Training Corps (JROTC) Program in the Chicago Public Schools offers an award-winning curriculum that incorporates leadership and character development, and dates back to 1919. The program develops students to their fullest potential and prepares them for college, careers, and citizenship by utilizing various components of the military model. Students receive rich, interactive, technology-driven instruction on a number of civics topics by a professional staff of retired military instructors. Students also have opportunities to socialize with students across the city and develop their leadership skills through such events such as summer camp, leadership camp, citywide sports competitions, orienteering, local and national drill competitions, and field trips. JROTC is a within-school program, in most cases, at selected CPS high schools; students can take advantage of this program after they are enrolled in a school. Visit www.ChicagoJROTC.com to see videos, meet the students, and learn about the schools with these programs.

Magnet Cluster Programs

Magnet cluster schools specialize in one particular area, such as technology, world language, or fine and performing arts. A magnet cluster school is an elementary neighborhood school; it has a neighborhood attendance boundary and accepts students who live within that boundary. Students who live outside of the neighborhood attendance boundary must participate in the application and selection process in order to be considered for acceptance.

Magnet High School Programs

High school magnet programs are offered in neighborhood high schools to enhance and enrich the curriculum. The programs accept students from throughout the city. Magnet programs have minimum eligibility requirements in order for students to apply.

Magnet Elementary Schools

Magnet elementary schools specialize in one particular area, such as math/science, STEM, or world language. In most cases magnet schools do not have neighborhood attendance boundaries. Unless the school has an attendance boundary, all interested students must submit an application in order to be considered for acceptance. In most cases, magnet elementary schools provide bus transportation to students who live between 1.5 and 6 miles from the school.

Magnet High Schools

Magnet High Schools (with the exception of Curie Metropolitan High School) do not have neighborhood attendance boundaries, accept students from throughout the city, and offer one or more specialty programs. Magnet High Schools have minimum eligibility requirements in order for students to apply.

Mathematics and Science

These programs strongly emphasize those aspects of knowledge that are most likely to contribute to a student's ability to explain, reason, communicate, and problem-solve, using mathematics and science.

Middle School Cadet Corp Program

Provides the opportunity for middle school students to develop leadership and discipline skills. The program includes an emphasis on communications, teamwork skills, discipline, and leadership training. (Madero Middle School only)

Military Academies (Service Learning Academies)

The Military Academies are unique four-year high schools that prepare students for college and subsequent careers. Although students wear uniforms and operate in a structured environment, these schools are not intended to prepare students for the military. Rather, students take part in unprecedented leadership opportunities and co-curricular activities, including college trips and citywide competitions, in a nurturing, safe, and healthy environment in which they can realize their full potential. Visit www.ChicagoJROTC.com to view videos, see testimonials, and learn more about these schools.

Montessori Program

The Montessori Program is a child-centered education approach that teaches students to solve problems independently in an inquiring, cooperative, nurturing atmosphere.

Open Classroom

Each grade level is located in an open classroom (no walls) environment. Each open space has an instructional team of eight teachers that services approximately 200 students. (Disney Magnet School only)

Open Enrollment Schools

An open enrollment school is a neighborhood elementary school that does not specialize in a particular area of the curriculum. Open enrollment schools accept students who live within their boundary. Students who live outside of the neighborhood attendance boundary must participate in the application and selection process in order to be considered for acceptance.

Primary Address

The student's primary address is the address that must be used on the student's application. The primary address is defined as the student's regular, fixed nighttime abode.

Scholastic Academies

Scholastic Academies are magnet schools that place strong emphasis on language arts and mathematics, and

offer an enriched curriculum in a selected area of art, music, science, world language, or language arts.

School Performance

The School Performance information provided on the CPS school profiles is derived from the following sources of information:

ACT:

The ACT is a standardized test for high school achievement and college admissions in the United States produced by ACT, Inc. (originally American College Testing). It includes English, mathematics, reading, and science. It is administered in Illinois as part of the PSAE.

Graduation Rate:

The CPS five-year cohort graduation rate follows a group of students who enter the Chicago Public Schools as freshmen and calculates the percent of these students who graduate within five years after their freshman year. The rate is calculated by dividing the number of students from an adjusted ninth grade cohort who graduated over the five-year time period by the total number of students in that cohort.

College Enrollment:

The CPS college enrollment rate is calculated using data acquired from the National Student Clearinghouse. The college enrollment rate is the percent of CPS graduates who enrolled in college by November 1st of that same year – the standard timeframe used to calculate national college enrollment statistics.

Selective Enrollment Elementary Schools

Selective Enrollment Elementary Schools provide academically advanced students in grades K-8 with a rigorous, accelerated curriculum. Selective Enrollment Elementary Schools encompass four individual programs: Academic Centers, Classical Schools, Regional Gifted Centers, and Regional Gifted Centers for English Learners. Testing is required in order for students to be considered for these programs.

Selective Enrollment High Schools

Selective Enrollment High Schools provide academically advanced high school students with a challenging and enriched college preparatory experience. Each of the Selective Enrollment High Schools offers a rigorous curriculum with mainly honors and Advanced Placement (AP) courses. The schools strive to develop students' critical and analytical thinking skills, and promote diverse academic inquiry by bringing together students from a wide range of backgrounds and experiences. Testing is required in order for students to be considered for these programs.

Small Schools

With total enrollments of 500 students or less, small high schools offer intimate and personalized learning environments. These schools serve as vehicles for teachers, students, parents, and other school community members to implement strategies that are specifically designed to serve the needs of their populations. In addition, the small size facilitates the ability of teachers to work together to design educational programs and to create a cohesive vision.

STEM (Science, Technology, Engineering and Math) Program

The STEM program provides students with a solid foundation in math, science, technology and engineering. Students are expected to explore the world around them and become problem-solvers and critical thinkers.

Technology Academies/Technology Program

This program develops in elementary school students the skills necessary to live and work in an increasingly digital world.

World Language

World language programs provide students with intensive instruction in a world language to acquire proficiency in the new language as well as develop cultural understanding and awareness.

World Language and International Studies Program

World Language and International Studies is an academically enhanced program at Morgan Park High School. The program emphasizes fluency in a world language, along with the development of international communication skills and understanding. All coursework is taken on an honors or Advanced Placement level. Students take four years of the same world language (French or Spanish are offered), four years of social studies, and a minimum of two Advanced Placement courses.
